# 1. Getting Started with Suncorp Bank HealthPoint

Welcome to Suncorp Bank HealthPoint, the complete health payments processing system. This user guide covers HealthClaims, for making ancillary and \*general practice claims against private health funds. Other HealthPoint features supported on this device are EFTPOS, and Medicare Easyclaim. To help you find your way through this guide, you may like to use the following lists of topics.

\*General and Nurse Practitioners can use HealthPoint for processing private health fund claims for Overseas Visitors and Students.

## 1.1 Introduction

For an introduction to HealthPoint and HealthClaims, read:

- The MOVE2500 HealthPoint keypad
- The MOVE5000 HealthPoint keypad
- The MOVE2500 Quick Reference Section
- The MOVE5000 Quick Reference Section
- Some tips from the health funds

## 1.2 Everyday Procedures

For the details of the everyday procedures covered in HealthClaims training, see the following sections:

- The Quick Reference Section is a useful summary of procedures or daily use
- Creating a HealthClaim and submitting it
- Cancelling a HealthClaim
- Printing the HealthClaims reconciliation report
- Retrieving and printing the HealthClaims activity report

## 1.3 HealthPoint Set-up

HealthPoint training also covers the following set-up procedures:

- Updating your practice name, address and phone number
- Updating, or adding details of your practitioners
- Editing the list of standard items codes, e.g. to adjust the service fees

## 2. Contacts

### 2.1 Suncorp Bank HealthPoint Contacts

#### Suncorp Bank Technical Helpdesk

For EFTPOS hardware and technical difficulties **1800 836 055** 24 hours, 7 days

#### Suncorp Bank Merchant Enquiries

For general merchant enquires (Account Queries/Changes)

**13 11 75** Monday to Friday, 8.30am to 5.00pm AEST  
(excluding Brisbane public holidays)

Please assist us by having your Merchant and Terminal number available when contacting the above helpdesks.

#### HealthPoint HealthClaims Helpdesk

For reporting of HealthPoint faults, instructions on how to process HealthPoint transactions and adding or deleting providers.

**1300 301 692** Monday to Friday, 8.00am to 6.00pm AEST  
Saturday 8.00am to 2.00pm AEST

**Note.** The training department operates Monday to Friday, 9.00am to 5.00pm AEST  
(Except for Public Holidays)

Please assist us by having your Customer ID/SUN ID number available when contacting HealthPoint HealthClaims Helpdesk. This ID can be located on receipts printed from the EFTPOS terminal and begins with SUN.

#### Your Merchant Details

Suncorp Bank Merchant No.

### 3. Glossary of Terms

3.1 The following symbols are used in the procedures detailed in this guide.

|                                                                                     |                                                                                                                                                                                                                                                                                            |
|-------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|     | <b>Quick Reference</b><br>The quick reference lists a simple set of steps that will quickly lead you through the procedure. If you don't know how to perform a step, check the corresponding step in the detailed description (the step numbers are the same).                             |
|     | <b>Detailed Description</b><br>The detailed description covers each step of the procedure in detail and includes all the options available on each screen. To help you familiarise yourself with the procedure, the detailed descriptions also include pictures of the HealthPoint screen. |
|     | <b>Start</b><br>Each procedure starts with a description of what state HealthPoint should be in before you work through the procedure. Most procedures start from the "insert/swipe" screen.                                                                                               |
| <b>1.</b>                                                                           | <b>Step</b><br>Each procedure is made up of one or more numbered steps. Unless you are instructed to go to a different step, follow each step-in sequence through to the end.                                                                                                              |
|     | <b>Additional notes or tips</b><br>Some steps include parts that only apply if a certain condition is true or allow you to perform one of several options.                                                                                                                                 |
| <b>[ ]</b>                                                                          | <b>Action</b><br>Select the action specified in the [ ] square brackets i.e. 'select [ADD]'.                                                                                                                                                                                               |
|    | <b>Warning</b><br>Do not ignore this screen!                                                                                                                                                                                                                                               |
|  | <b>Finish</b><br>The "thumbs up" indicates you've completed the procedure.                                                                                                                                                                                                                 |
|   | <b>Cross Reference</b><br>In some parts of the procedures, you need to branch to the step or section shown by the cross reference symbol.                                                                                                                                                  |
|  | <b>Please Wait</b><br>This symbol indicates that, at this point in the procedure, HealthPoint connects to the HealthPoint Health Message centre to send and receive information. This takes a few moments.                                                                                 |

## 4. Some Tips from the Health Funds

To help you avoid some common mistakes with on-line claiming, the health funds have provided the following tips:

- Every time you swipe a patient's card and submit a HealthClaim, HealthPoint connects to the relevant health fund and makes a real, live claim for your patient.
- If a patient disputes the amount of a rebate, cancel the claim and advise them to make a manual claim with the health fund. Cancellations must be made on the same day of service.
- Whenever possible, make one claim for the whole consultation, including all the items covered. Separate claims for each individual item may mean your patient receives a reduced benefit.
- If a patient is receiving a course of treatment, make claims on a consultation by consultation basis, rather than one big claim at the end of the course.
- If you are unsure about which service item codes apply for a particular type of service, consult your professional association. The codes included in this user guide were provided by your association, in consultation with the health funds.
- You must not make a claim for a service or appliance you have not supplied. For example, you cannot claim for a pair of glasses until the patient has actually received the glasses, even if you bill the patient in advance.
- You must not make claims for deposits taken when ordering appliances (e.g. dental crowns, glasses), then claim for the remainder when the appliance is supplied. Make only one claim for each appliance when the appliance is supplied.
- Review the HealthPoint Service Terms and Conditions to make sure you understand your legal obligations under your agreement with the health funds. If you need another copy of your terms and conditions, call the HealthPoint Help Desk on 1300 301 692.
- Remember that the health funds have the right to refuse to accept a claim that does not comply with their requirements. If in doubt, always consult the health fund in question.

## 5. Terminal Overview

The Terminal Overview provides information on the functionality of the buttons on your Suncorp Bank HealthPoint Terminal and how to initiate a transaction.

Move 2500 Keyboard Layout

- Where an action option is displayed above these buttons - simply press the corresponding button to perform the action. Additional options may be available via the
- Menu/Toggle button.
  - MENU/Toggle button
  - Cancel key
  - Backspace/Clear key
  - Enter key

Move 5000 Keyboard Layout

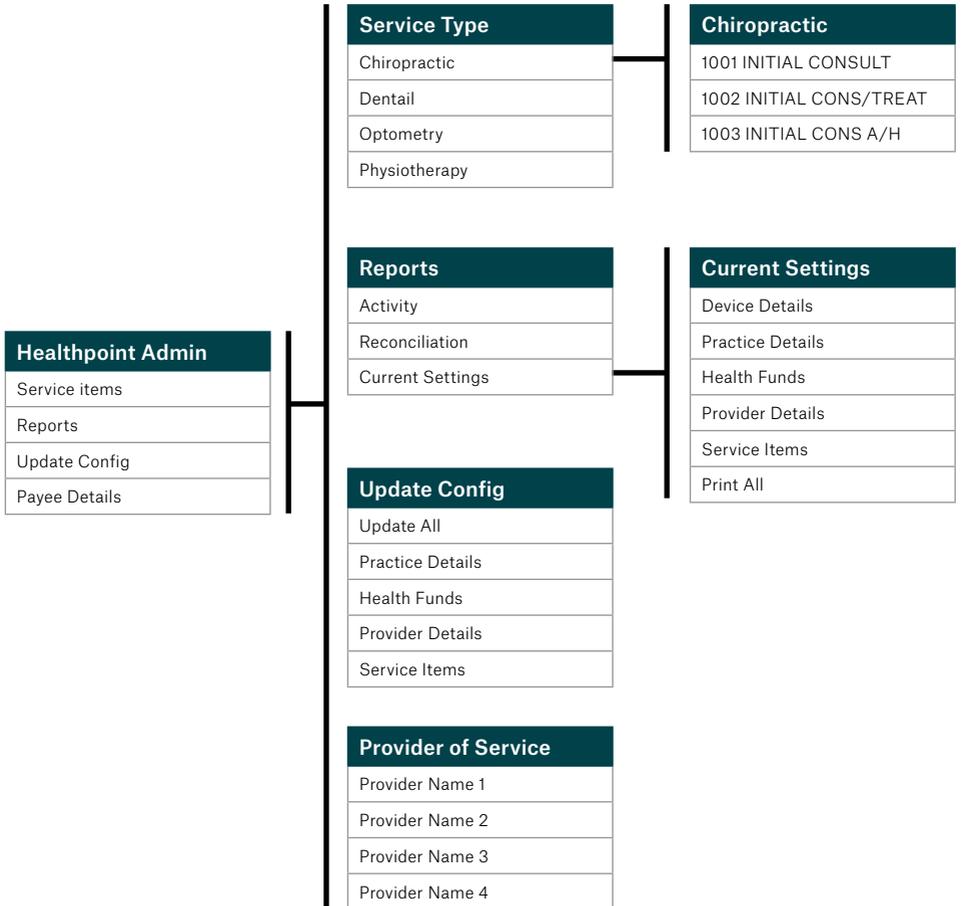

- MENU/Toggle button
- Cancel key
- Backspace/Clear key
- Enter key

To navigate through the menu screens use the up and down arrows to highlight the required menu option and then press Enter to make your selection.

The Move 5000 has an interactive touch screen. To select a menu option simply, touch the required option on screen.

## 6. HealthPoint Admin Menu Map

## 7. 🕒 MOVE2500 – Quick Reference Section

For more information on any step in the following quick reference procedure, refer back to the detailed procedure in the main part of the user guide. The step numbers are always the same in both the quick reference and the detailed procedure.

### 7.1 🕒 Creating a HealthClaim against a Health Fund

|    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ➡  | Start from the "swipe" screen.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1. | Swipe the patient's health fund card.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2. | Enter the patient reference number, and then press ENTER.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3. | If HealthPoint displays the PROVIDER OF SERVICE screen, select* the Service Provider from the list, and then press ENTER**                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4. | Select up to 16 service items from the list. <ul style="list-style-type: none"> <li>(a) Select an item from the SERVICES screen.</li> <li>(b) Select the relevant field for editing. Edit as required. Select [NEXT] to confirm.</li> <li>(c) Either [ADD] to add more items or select [NEXT] to make the claim with the selected items.</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                       |
| 5. | To add another Patient to the claim, select [ADD] and follow the previous steps                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 6. | To submit this HealthClaim to the appropriate health fund, select [SUBMIT].<br>🕒 HealthPoint submits the claim and retrieves the health fund response, and then prints a claim assessment for the patient to sign.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 7. | <p>🗨 Advise the patient of the health fund's rebate of the claim and ask them if they accept it. To accept the rebate offered, select [ACCEPT].</p> <p>✍ Have the patient sign the health fund assessment.</p> <p>✍ Verify the patient's signature and write your initials on the assessment. File the patient-signed and verified assessment. Retain for two years.</p> <p>🗨 To reject the rebate offered, select [REJECT].</p> <p>🕒 HealthPoint rejects the claim and retrieves the health fund response. The terminal will show "VOID approved. What would you like to do with the Claim?"</p> <p>🗨 Select [DISCARD], to discard the claim and return to the "swipe" screen.</p> <p>🗨 Select [ADJUST], to return to the HEALTHFUND summary screen.</p> |
| 8. | If you have already received monies from the patient, perhaps by way of a deposit or down payment, enter that amount, and then press ENTER. If not, leave the amount blank and press ENTER.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 9. | If there are monies owing, HealthPoint asks for the METHOD OF PAYMENT. Answer the question by selecting [EFTPOS], [CASH] or *** [INVOICE] and process accordingly.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|     |                                                                                                                                                                                                                                                                                                                                                   |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10. | A second copy of the receipt will print. Did the receipt print correctly?<br>Select [DONE].                                                                                                                                                                                                                                                       |
| 11. | Once you have successfully printed the receipt.<br> Give the receipt to the patient.<br>HealthPoint returns to the "swipe" screen<br> You have finished creating a HealthClaim! |

## 7.6 🕒 Adding an Adhoc Item Number

|     |                                                                                                                                                                             |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 🔄   | Start from the "swipe" screen.                                                                                                                                              |
| 1.  | Press the Menu button  on the righthand side of the terminal below the screen              |
| 2.  | Key in the corresponding number for Suncorp Health                                                                                                                          |
| 3.  | Enter the operator password - Press [ENTER]                                                                                                                                 |
| 4.  | Select* HEALTHPOINT - Press [ENTER]**                                                                                                                                       |
| 5.  | Select HEALTHPOINT ADMIN.                                                                                                                                                   |
| 6.  | Select SERVICE ITEMS.<br> HealthPoint will retrieve a list of items known to the terminal. |
| 7.  | Select the SERVICE TYPE you want to assign the item to. For example, DENTAL, OPTICAL.<br>Note: The terminal will show the Modalities configured on your terminal.           |
| 8.  | To add an item, select [FIND], enter the new item code                                                                                                                      |
| 9.  | Item Not Found - Add Item?                                                                                                                                                  |
| 10. | Select YES                                                                                                                                                                  |
| 11. | Edit Service is displayed                                                                                                                                                   |
| 12. | Press [ENTER] using the keypad, type in the Service Description                                                                                                             |
| 13. | Press [ENTER]                                                                                                                                                               |
| 14. | Select Fee                                                                                                                                                                  |
| 15. | Enter the Fee using the keypad, Press [ENTER]                                                                                                                               |
| 16. | Select OK                                                                                                                                                                   |
| 17. | Select NEXT                                                                                                                                                                 |
| 18. | Service Items Successfully Updated message will be displayed                                                                                                                |
| 19. | Select DONE                                                                                                                                                                 |
| 20. | Press the CANCEL button to return to the idle menu                                                                                                                          |
|     | * Use the up/down arrows to highlight the menu option you wish to select                                                                                                    |
|     | ** Use the ENTER key to action your selections.                                                                                                                             |

## 7.7 Rebate Estimate (Quote)

You can obtain a rebate estimate from any health fund simply by rejecting the outcome of a claim once returned by the health fund, (i.e. submit the claim as you normally would and then reject the response once you have made note of the rebate and gap amounts) voiding the outcome at the Fund.

## 8. 🕒 MOVE5000 – Quick Reference Section

For more information on any step in the following quick reference procedure, refer back to the detailed procedure in the main part of the user guide. The step numbers are always the same in both the quick reference and the detailed procedure.

---

**Note: The terminal should be configured to use Bluetooth to the base when out of the cradle for HealthClaims.**

---

### 8.1 🕒 Creating a HealthClaim against a Health Fund

|    |                                                                                                                                                                                                                                                                                                                                                                         |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| ➡  | Start from the “swipe” screen.                                                                                                                                                                                                                                                                                                                                          |
| 1. | Swipe the patient’s health fund card.                                                                                                                                                                                                                                                                                                                                   |
| 2. | Enter the patient reference number, and then press ENTER.                                                                                                                                                                                                                                                                                                               |
| 3. | If HealthPoint displays the PROVIDER OF SERVICE screen, select* the Service Provider from the list, and then press ENTER                                                                                                                                                                                                                                                |
| 4. | Select up to 16 service items from the list.<br><br>(a) Select an item from the SERVICES screen.<br><br>(b) Select the relevant field for editing. Edit as required. Select [NEXT] to confirm. Copy/discard item if required.<br><br>(c) Either [ADD] to add more items or select [NEXT] to make the claim with the selected items.                                     |
| 5. | To add another Patient to the claim, select [ADD] and follow the previous steps                                                                                                                                                                                                                                                                                         |
| 6. | To submit this HealthClaim to the appropriate health fund, select [SUBMIT].<br><br>🕒 HealthPoint submits the claim and retrieves the health fund response, and then prints a claim assessment for the patient to sign.                                                                                                                                                  |
| 🗨  | 7. Advise the patient of the health fund’s rebate of the claim and ask them if they accept it. To accept the rebate offered, select [ACCEPT].<br><br>✍ Have the patient sign the health fund assessment.<br><br>✍ Verify the patient’s signature and write your initials on the assessment. File the patient-signed and verified assessment. Retain for two years.      |
| 🗨  | To reject the rebate offered, select [REJECT].<br><br>🕒 HealthPoint rejects the claim and retrieves the health fund response. The terminal will show “VOID approved. What would you like to do with the Claim?”<br><br>🗨 Select [DISCARD], to discard the claim and return to the “swipe” screen.<br><br>🗨 Select [ADJUST], to return to the HEALTHFUND summary screen. |
| 8. | If you have already received monies from the patient, perhaps by way of a deposit or down payment, enter that amount, and then press ENTER. If not, leave the amount blank and press ENTER.                                                                                                                                                                             |

|     |                                                                                                                                                                                                                                                                                                                                                   |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 9.  | If there are monies owing, HealthPoint asks for the METHOD OF PAYMENT. Answer the question by selecting [EFTPOS], [CASH] or *** [INVOICE] and process accordingly.                                                                                                                                                                                |
| 10. | A second copy of the receipt will print. Did the receipt print correctly? Select [DONE].                                                                                                                                                                                                                                                          |
| 11. | Once you have successfully printed the receipt.<br> Give the receipt to the patient.<br>HealthPoint returns to the “swipe” screen<br> You have finished creating a HealthClaim! |
|     | * The Move 5000 has an interactive screen. To select a menu option, simply ‘touch’ the option on the screen itself.                                                                                                                                                                                                                               |

## 8.2 🕒 Cancelling a Healthclaim

|                                                                                   |                                                                                                                                                                |
|-----------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
|  | Start from the “swipe” screen.                                                                                                                                 |
| 1.                                                                                | Press the Menu button  on the righthand side of the terminal below the screen |
| 2.                                                                                | Key in the corresponding number for Suncorp Health                                                                                                             |
| 3.                                                                                | Enter the operator password - Press [ENTER]                                                                                                                    |

| 15.                                                                              | Select DONE                                                                                                                                                                 |
| 16.                                                                              | Press the CANCEL button to return to the idle menu                                                                                                                          |
|                                                                                  | * The MOVE5000 has an interactive screen. To select a menu option, simply 'touch' the option on the screen itself.                                                          |

## 8.6 🕒 Adding an Adhoc Item Number

|     |                                                                                                                                                                             |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 🔄   | Start from the "swipe" screen.                                                                                                                                              |
| 1.  | Press the Menu button  on the righthand side of the terminal below the screen              |
| 2.  | Key in the corresponding number for Suncorp Health                                                                                                                          |
| 3.  | Enter the operator password - Press [ENTER]                                                                                                                                 |
| 4.  | Select* HEALTHPOINT                                                                                                                                                         |
| 5.  | Select HEALTHPOINT ADMIN.                                                                                                                                                   |
| 6.  | Select SERVICE ITEMS.<br> HealthPoint will retrieve a list of items known to the terminal. |
| 7.  | Select the SERVICE TYPE you want to assign the item to. For example, DENTAL, OPTICAL.<br>Note: The terminal will show the Modalities configured on your terminal.           |
| 8.  | To add an item, select FIND                                                                                                                                                 |
| 9.  | Enter the new item code, Press ENTER                                                                                                                                        |
| 10. | Item Not Found - Add Item? Is displayed                                                                                                                                     |
| 11. | Select YES                                                                                                                                                                  |
| 12. | Edit Service is displayed                                                                                                                                                   |
| 13. | Press [ENTER] and using the keypad, type in the Service Description                                                                                                         |
| 14. | Press [ENTER]                                                                                                                                                               |
| 15. | Select Fee                                                                                                                                                                  |
| 16. | Enter the Fee using the keypad, Press [ENTER]                                                                                                                               |
| 17. | Select OK                                                                                                                                                                   |
| 18. | Press ENTER                                                                                                                                                                 |
| 19. | Service Items Successfully Updated message will be displayed                                                                                                                |
| 20. | Select DONE                                                                                                                                                                 |
| 21. | Press the CANCEL button to return to the idle menu                                                                                                                          |
|     | * The MOVE5000 has an interactive screen. To select a menu option, simply 'touch' the option on the screen itself.                                                          |

## 8.7 Rebate Estimate (Quote)

You can obtain a rebate estimate from any health fund simply by rejecting the outcome of a claim once returned by the health fund, (i.e. submit the claim as you normally would and then reject the response once you have made note of the rebate and gap amounts) voiding the outcome at the Fund.

## 9. MOVE2500

### 9.1 Creating a HealthPoint Claim against a Health Fund

#### 9.1.1 Detailed Description

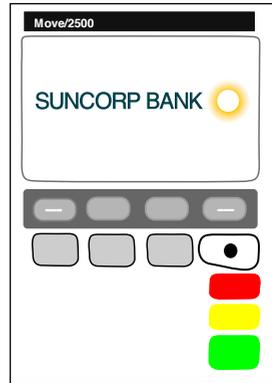

For a brief summary of this procedure, see the Quick Reference Section.

- \*Use the up/down arrows to highlight the menu option you wish to select
- \*\* Use the ENTER key to action your selections.
- \*\*\*Use the MENU button to toggle between screens

 Start from the “swipe” screen.

1. Swipe the patient’s health fund card.

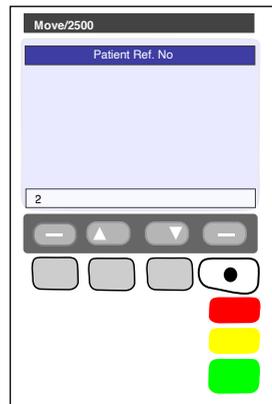

If the card won’t swipe, you cannot proceed with the claim. Our agreement with the health funds requires the patient to be present and to have a valid health fund card to make a claim.

HealthPoint displays the health fund patient reference screen

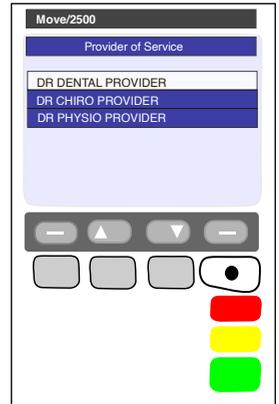

2. Enter the patient reference number (on their health fund card) then press ENTER.

Note: You do not have to enter a 'leading zero'. For example, if the patient is numbered 01 on the card, just enter 1 into HealthPoint

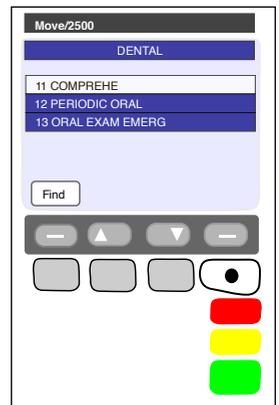

HealthPoint displays the Provider of Service screen

3. Select the servicing provider from the list, Press ENTER
  - To see more screens of providers, use the arrow keys.
  - If the practitioner is not on the list, but has been registered with HealthPoint, see the section of this guide titled 'Adding a Practitioner'.
  - If the Provider is not registered with HealthPoint please contact the HealthPoint Healthclaims Helpdesk on 1300 301 692 to add the new provider to the HealthPoint system.

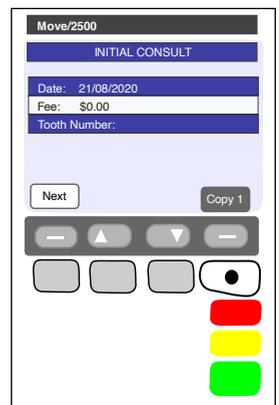

HealthPoint displays a list of services applicable to the practitioner selected. For example, if you select DR DENTAL PROVIDER as the practitioner, the services displayed might look like this.

4. Select and confirm up to sixteen service items from the services screen.
  - 4(a) Select a service item from the list displayed on the services screen

HealthPoint displays the ADD SERVICE screen

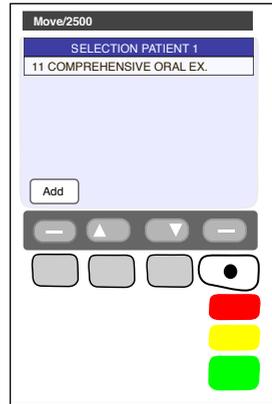

- 4(b) If you wish to edit the fee, select FEE, key in the amount, press [ENTER]. If the item and fee are correct, select NEXT to add the item to the claim.

This screen shows the items you have added to the claim for Patient 1.

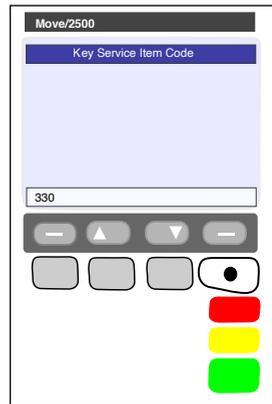

4(c) Either select [ADD] to select more items (go back to step 4(a)), or select [NEXT] to proceed, go to step (4f)

Each of these steps (4(a) – 4(c)) has several options which are shown in more detail below. For more information on adding items to claims, see steps 4(d) to 4(f) below. To proceed with processing the claim, go to step (5).

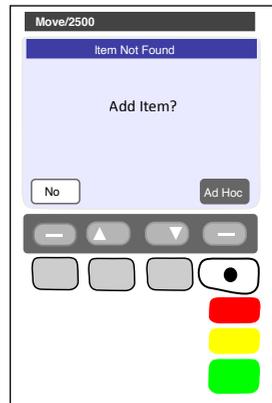

4(d) At the SERVICES screen shown, select an item from the list, then go on to the next step.

- View the items you have already selected.
- To see more screens of items from the menu, use the arrow keys [DOWN] AND [UP].
- Go to part 4(f) of this step.
- Select [FIND] to find an item in the list. HealthPoint displays the KEY SERVICE screen.

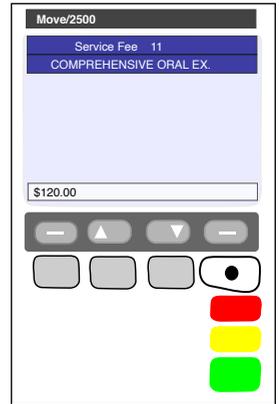

- If the item code is not in the list, HeathPoint displays the ITEM NOT FOUND screen.

Answer the question by selecting one of the following:

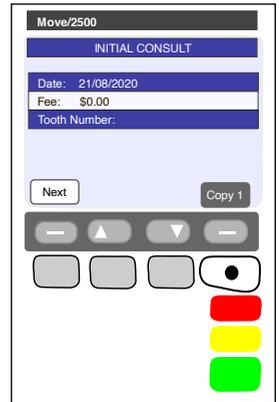

- ⓘ If you select [AD-HOC], HealthPoint adds the item to this claim, but not to your regular list of items. HealthPoint displays the AD-HOC SERVICE screen. Go to step 4(e).
- ⓘ If you select [YES], HealthPoint adds the item both to this claim, and to your regular list of items. HealthPoint displays the NEW SERVICE screen. Go to step 4(e).
  - If you select [NO], HealthPoint returns to the FIND ITEM screen. Press CANCEL to go back to the service list. Go to step 4(d).

After you have selected an item from the list, HealthPoint displays the ADD SERVICE screen, showing the details of the item you just selected.

4(e) To confirm your selection of this item (i.e. to add it to your claim), press NEXT, and then go on to step 4(f).

- ⓘ Alternatively, perform one (or more) of the following actions: To discard this item, if you decide not to select it, use the MENU button to toggle between screens and select [DISCARD].
- ⓘ HealthPoint returns to the item list screen. Go back to part 4(a) of this step.
  - To copy the current item, select [COPY]. HealthPoint copies the item, as displayed on the screen, to your claim. It then displays the copy of the item on the screen as a new current item. You can now make changes to this new copy of the item, such as the body part. HealthPoint displays the number of copies made next to the COPY key.
  - Go back to the top of this part 4(e) of this step.

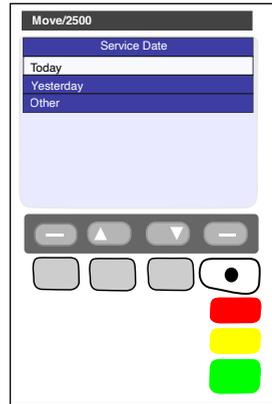

- To adjust the date of service, select the DATE, Press ENTER

HealthPoint displays the SERVICE DATE screen

- If the date of service is more than a day ago, select 'OTHER', then enter the date as one big number in the format DDMMYYYY (day month year, with no spaces in between), then press ENTER.

Note: A claim cannot be made for a service to be delivered at a future date.

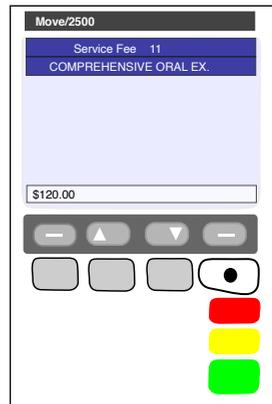

- Go back to the top of this part 4(e) of this step.
- To adjust the fee for this service, select FEE.

HealthPoint displays the SERVICE FEE screen

HealthPoint displays the fee stored in the item list. Enter the correct fee by typing over the fee displayed, and then press ENTER.

This does not change the "standard" fee on the item list, only for this instance for this patient. It is possible to select several copies of an item, each with a different fee.

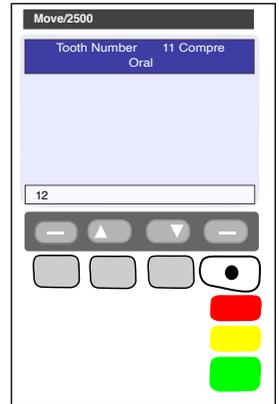

Note: The fee entered must always be equal to the amount actually charged to the patient including discounted amounts.

- Go back to the top of this part 4(e) of this step.
- To adjust the TOOTH NUMBER (dentists only), select Tooth Number.

HealthPoint displays the TOOTH NUMBER screen.

Enter the two-digit ADA (Australian Dental Association) standard tooth number, and then press ENTER.

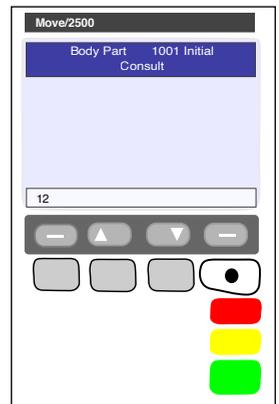

↶ Go back to the top of this part 4(e) of this step.

- To adjust the body part (Physiotherapists only), select BODY PART.
- HealthPoint displays the BODY PART screen.

Enter the body part for this item, and then press ENTER

↶ Go back to the top of this part 4(e) of this step.

After you have pressed ENTER, HealthPoint displays the SELECTION PATIENT screen.

This screen shows the items added to your claim

4(f) To make the claim with the items displayed, press NEXT, then go on to step 5.

Alternatively, perform one (or more) of the following actions:

📌 To add another item, select [ADD].

HealthPoint displays the SERVICES screen.

↶ Go back to the top of this step (step 4a).

📌 To remove an item from your selection, select the item.

HealthPoint displays the ADJUST SERVICE screen. Select [DISCARD].

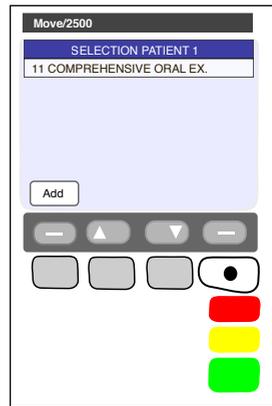

↶ Go back to the top of 4(f).

📌 To adjust an item (or review it), select the item.

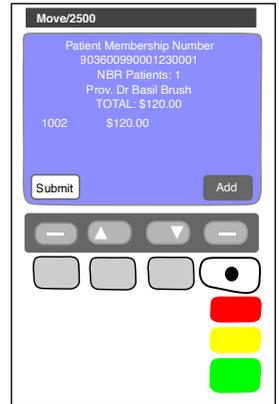

HealthPoint displays the ADJUST SERVICE screen.

Make any required adjustments (e.g. to fee, body part, tooth number, etc.) as described in part 4(e) of this step then press ENTER.

— Go back to the top of 4(f).

After you have pressed NEXT, HealthPoint displays the HEALTH FUND 'summary' screen.

5. To submit this Healthclaim to the appropriate health fund, select [SUBMIT]

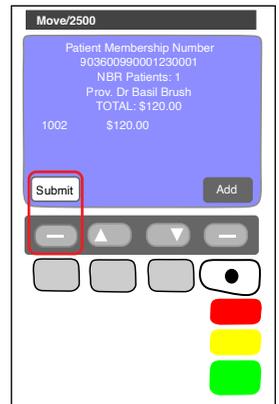

Alternatively, perform one (or more) of the following actions:

To add another patient to this claim, select [ADD]

To see more screens of items, select [DOWN] or [UP]

- ↩ Go back to step 2 and follow through the steps again until you return to the HEALTH FUND "summary" screen. You don't have to select the practitioner again.

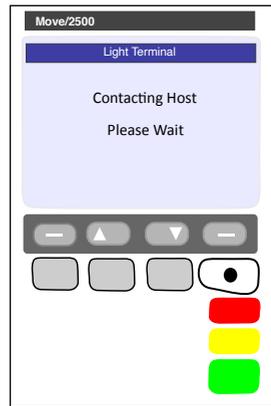

Note: Any single claim may only include services performed by one practitioner. Services performed by a different practitioner must be included in a separate claim.

Once you have pressed SUBMIT, HealthPoint attempts to make a connection to the HealthPoint Health Message Centre.

HealthPoint displays a message on the screen, which indicates what it is currently doing. These messages include:

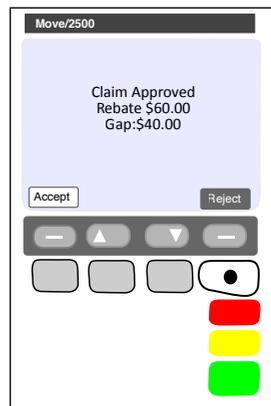

- CONTACTING HOST, PLEASE WAIT

After HealthPoint has finished submitting the claim and receiving the health fund's response, it prints a copy of the claim receipt. HealthPoint prints an assessment, and then displays the HEALTH FUND "assessment" screen.

The printed assessment shows the health fund's responses to each item and to the claim as a whole.

A response of "00" or "0000" means the claim or item has been approved. Explanations of the other responses are detailed in Appendix A: Health Fund Responses.

- ⓘ If an error occurs during the claim submission, HealthPoint displays the HEALTH FUND “failed submission” screen.

Answer the question by selecting [DISCARD], or [RETRY].

- ⓘ If you select [RETRY], HealthPoint tries to send the claim again.
- ⓘ If you select [DISCARD], HealthPoint discards the claim completely, and then returns to the “swipe” screen.

↩ Go to step 1.

Most errors that occur during a claim submission are one-offs. We recommend you try again (select [RETRY]).

If the error occurs again, call the HealthPoint HealthClaims Help Desk on 1300 301 692.

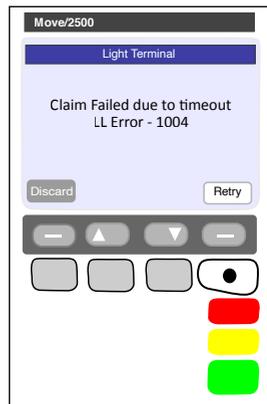

- ⓘ If the Health Fund has rejected the claim, see Health Fund Responses to HealthClaims for information on what to do next.

6. Advise the patient of the health fund’s rebate of the claim and ask them if they accept it.

~~✍~~ Have the patient sign the health fund assessment.

~~✍~~ Verify the patient’s signature.

File the patient-signed and verified assessment. Retain for two years.

You can answer HealthPoint's question by selecting [ACCEPT] or [REJECT]

ⓘ If you select [ACCEPT],

Go to step 7.

If you select [REJECT],

⌚ HealthPoint attempts to make a connection to the HealthPoint Message Centre to send a claim rejection, in much the same way when you submitted the claim in step 5.

ⓘ If an error occurs during the claim submission, HealthPoint displays the HEALTH FUND "failed submission" screen

Answer the question by selecting one of the following:

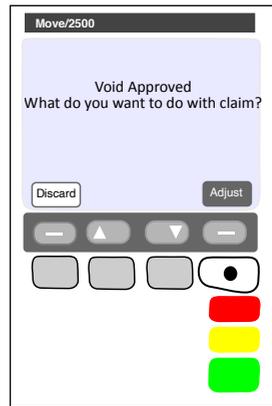

ⓘ If you select [DISCARD], HealthPoint discards the rejection, and then returns to the "swipe" screen. If you select [RETRY], HealthPoint tries to REJECT the claim again.

This means the claim, which has gone through to the health fund, remains in force. To cancel it, see Cancelling a HealthClaim.

After HealthPoint has finished rejecting the claim and receiving the health fund's response, it prints a copy of the rejection receipt.

ⓘ If the health fund does not accept the rejection, see Health Fund Responses to HealthClaims for information on what to do next.

ⓘ If the health fund accepts the claim rejection, HealthPoint displays the VOID APPROVED screen.

Answer the question by selecting one of the following:

If you press [DISCARD], HealthPoint returns to the “swipe” screen.

Go to the end of the procedure.

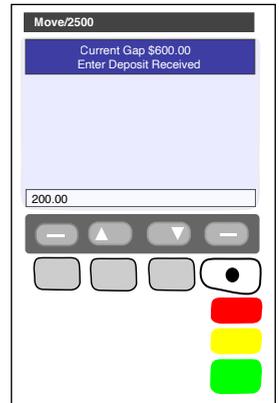

If you press [ADJUST], HealthPoint returns to the HEALTH FUND summary screen. Adjust (change) the claim and submit it again

Go to step 5

7. Once the claim has been submitted, HealthPoint displays the DEPOSITS RECEIVED screen.

If you have already received monies from the patient, perhaps by way of a deposit or down payment, enter that amount, and then press ENTER.

- ⓘ If there was no deposit paid, leave the amount as zero and press ENTER. HealthPoint adjusts the gap amount by the amount you just entered.

8. If there are monies owing (because the rebate did not cover the fees for the services rendered), HealthPoint displays the METHOD OF PAYMENT screen. Answer the question by selecting [EFTPOS], [CASH], [INVOICE]

ⓘ If you selected [EFTPOS], process the EFTPOS transaction according to the Suncorp Bank's EFTPOS Merchant Facilities Quick Reference Guide. If your terminal is Multi Merchant, you may be required to select the \*Merchant for payment.

\*Please call the HealthPoint HealthClaims Help Desk on 1300 301 692 for assistance if you wish to map your Providers to the available Merchants. This will eliminate the requirement to select the Merchant at the time of payment.

ⓘ If you selected [CASH], HealthPoint will print receipts.

ⓘ If you selected [INVOICE], HealthPoint will print accounts. HealthPoint prints a receipt or account for the practice, and then displays the PRINT CONFIRMATION screen.

Note: To select [INVOICE], press the MENU button to toggle between screens

HealthPoint will print receipts.

Wait for the receipt to print, then select [DONE]

ⓘ Select [DONE] if the receipt is correct. Give the receipt to the patient.

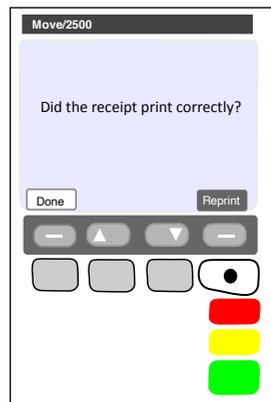

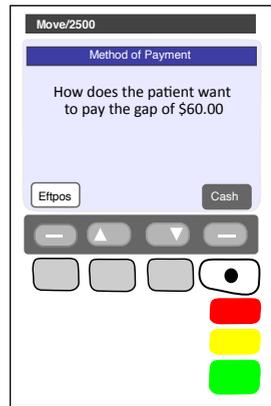

Select [REPRINT] if the receipt did not print correctly.

Select [SKIP] if the receipt did not print correctly and is not required.

Note: To select [SKIP], press the MENU button to toggle between screens

— Give the receipt to the patient. HealthPoint returns to the "insert/swipe" screen

You have finished creating a HealthClaim.

## 9.2 About the HealthClaims Receipt

The HealthClaims Receipt is a paper record of the claim sent to the health fund via HealthPoint.

## 9.3 Cancelling a HealthPoint Claim

Use this procedure to cancel a HealthClaim you submitted and which the patient accepted earlier today.

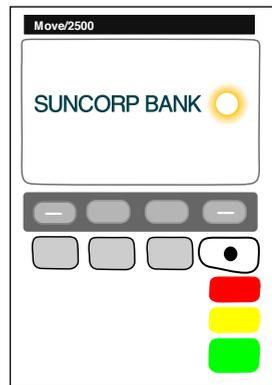

Note: You need the patient's health fund card in order to cancel the claim. The health funds will only accept the cancelling of a claim on the same day it was submitted.

Note: The day ends at midnight Sydney Time, so claims submitted before midnight Sydney time cannot be cancelled after midnight Sydney time, irrespective of your local time zone. The health funds agreed operating hours mean that the HealthClaims service may not be available at this hour.

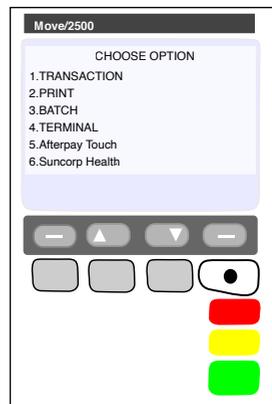

### 9.3.1. Detailed Description

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the "swipe" screen.

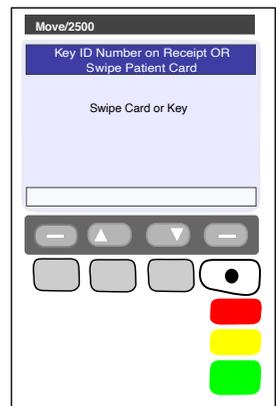

1. Press the Menu button  on the righthand side of the terminal below the screen
2. Key in the corresponding number for Suncorp Health

3. If you have set up an operator ID on your HealthPoint you will be prompted to enter the Operator Password
4. Enter the OPERATOR PASSWORD - press ENTER
5. Select HEALTHPOINT - press ENTER
6. Select CANCEL CLAIM - press ENTER

In order to cancel a claim, you must first find the claim. HealthPoint will display the FIND CLAIM screen.

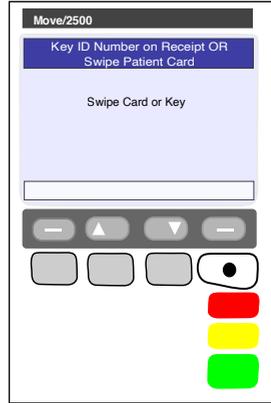

7. Perform one of the following actions to find a specific claim,
  - ⓘ Enter the claim receipt number, which you can find on the top of the printed copy of the claim, and press ENTER.

You only need the second part of the number after the space.

Note: You do not need to key in all of the zeros at the front of the claim number. For example, to find claim 000020, you only need to key in 20.

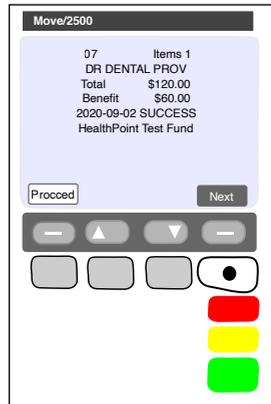

- Or To find claim associated with a membership, Swipe the Health Fund Card used to claim with.

- HealthPoint will connect to the HealthPoint Claim server and find the claim for cancellation

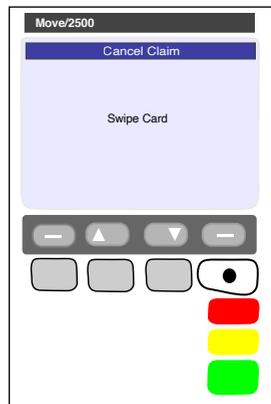

- To cancel this HealthClaim with the appropriate health fund, select [PROCEED]

- If you have already swiped the patient's card to find the claim, no further card swipe is required.

- If you have found the claim by entering the Claim ID, HealthPoint displays the CANCEL FUND CLAIM screen and prompts you to swipe the patient's card.

Note: If the patient is no longer at your practice and you do not have their card, you CANNOT cancel the claim. The health funds only permit cancellation if you use the health fund's card in the presence of the patient on the same day that the claim was submitted. The day finishes at midnight Sydney time.

 HealthPoint attempts to make a connection to the HealthPoint Message Centre.

 If an error occurs during the claim submission, HealthPoint displays the HEALTH FUND “failed submission” screen.

Answer the question by selecting one of the following:

 If you select [RETRY], HealthPoint tries again to cancel the claim.

 If you select [DISCARD], HealthPoint discards the attempt to cancel the claim, and then returns to REVIEW CLAIM screen.

 Go to step 8.

After HealthPoint has finished cancelling the claim and receiving the health fund’s response, it prints a copy of the cancelled claim receipt, then displays the PRINT CONFIRMATION screen.

The receipt shows the health fund’s responses to the cancellation. A response of “00” means the cancellation has been accepted and approved.

Explanations of the other responses are detailed in the Cancellation and Rejection Responses section of Appendix A: Health Fund Responses.

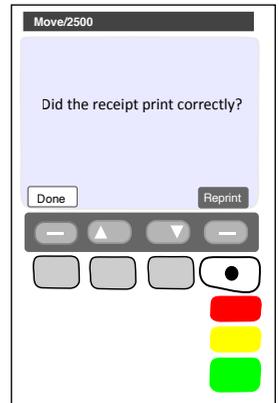

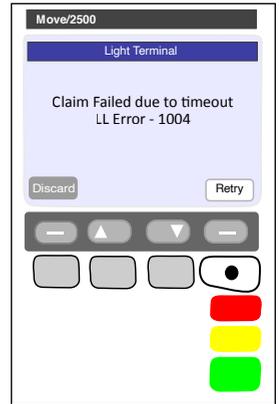

9. Select [DONE], if the receipt is correct. Select [NO REPRINT] if it has printed incorrectly.

 Have the patient sign the cancellation receipt.

 Verify the patient’s signature and write your initials on the cancellation receipt. File the patient-signed and verified cancellation receipt. Retain for two years

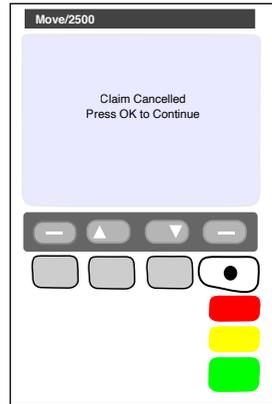

HealthPoint prints a second copy of the cancelled receipt or account for the patient, and then displays the PRINT CONFIRMATION screen again.

10. If the second copy of the receipt has printed successfully, then select [DONE].

HealthPoint displays the CLAIM CANCELLED screen.

11. Press [ENTER] to return to the HealthPoint menu
12. Press [CANCEL] to return to the idle menu
13. 👍 You have finished cancelling a HealthClaim!

## 9.4 Printing a HealthPoint Reconciliation Report

Use this procedure to print the daily HealthClaims Reconciliation Report.

Reconciliation for a day's claims will be made available the following day. This is by design to ensure that the Reconciliation Report for a day covers the entire day's claims.

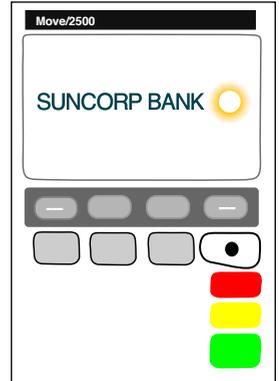

We recommend this report is printed to support reconciliation of the prior days claims.

### 9.4.1 Detailed Description

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the "swipe" screen.

1. Press the Menu button  on the righthand side of the terminal below the screen

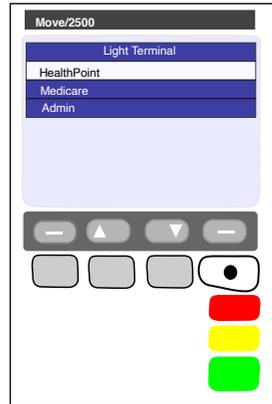

2. Key in the corresponding number for Suncorp Health

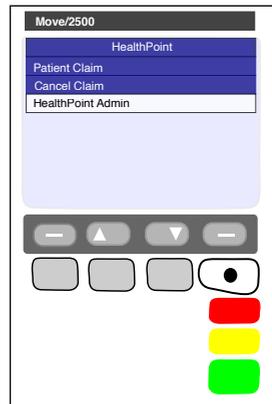

3. Enter the OPERATOR PASSWORD - Press ENTER

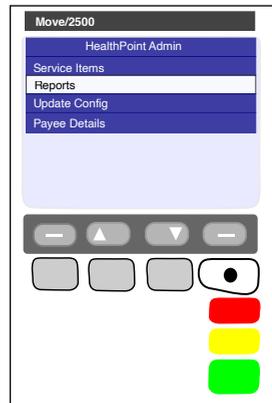

4. Select HEALTHPOINT - Press ENTER

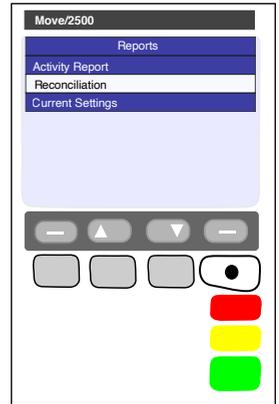

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN - Press ENTER

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select REPORTS - Press ENTER

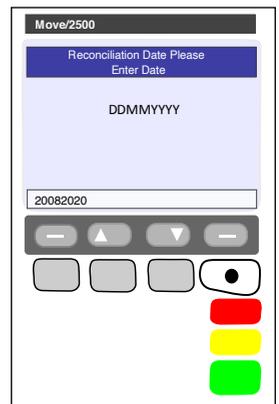

7. Select RECONCILIATION – Press ENTER

8. HEALTHPOINT will prompt you for the Reconciliation Date

This should be entered as DDMMYYYY (day month year, with no spaces in between), then press ENTER.

- HealthPoint submits a request for the Reconciliation report from the HealthPoint Message Centre, and then prints the reconciliation report, then displays the PRINT CONFIRMATION screen.

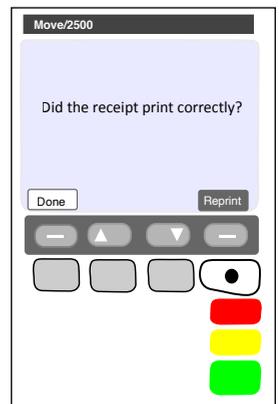

9. Select [DONE] to confirm the report printed

- If a reprint is required, select [NO, REPRINT].
- If the print was not successful, but a reprint is not required, use the MENU button to toggle between screens, select [SKIP].

! If the print was successful, select [DONE]

HealthPoint returns to the swipe screen

👍 You have successfully printed the HealthClaims Reconciliation Report.

## 9.4.2 About the Healthclaims Reconciliation Report

The HealthClaims Reconciliation report is HealthPoint's record of the claims sent through to each health fund during a particular day. Each practitioner is shown in a separate section. The Reconciliation report for a days claims is available the following day.

## 9.4.3 Terminal Printout (Example Only)

| <b>HealthPoint</b>                                 |               |          |          |             |
|----------------------------------------------------|---------------|----------|----------|-------------|
| <b>Reconciliation Report</b>                       |               |          |          |             |

## 9.4.4 Reconciliation Report Definitions

| Reconciliation Report Terms | Definition                                                                                                                                                                        |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Customer ID                 | HealthPoint ID.<br>Should you need to contact the HealthPoint Support team you will need this for identification.                                                                 |
| Date of Claims              | The date the claims were processed on.                                                                                                                                            |
| Period Covered              | The time period on the claiming date this Reconciliation Report covers.                                                                                                           |
| Receipt                     | The HealthPoint claim receipt number                                                                                                                                              |
| Charge                      | The practice charge for the HealthPoint claim                                                                                                                                     |
| Benefit                     | The benefit (rebate) amount the Health Fund responded with.                                                                                                                       |
| Gap                         | The difference between the Charge and the Benefit.<br>Represents the patients out of pocket cost for the services provided.                                                       |
| Code                        | The Health Fund response or assessment code for the HealthPoint claim.                                                                                                            |
| Fund Total                  | The total* for each column for 'this' provider for 'this' fund.                                                                                                                   |
| Total                       | The total* for each column for 'this' provider for all fund claims processed during the claiming day.                                                                             |
| Total Fees                  | The total* Fees for each column for all providers, all fund claims processed during the claiming day                                                                              |
| Total Rebate                | The total* Rebate (benefit) amount for all providers, all fund claims processed during the claiming day.                                                                          |
| Accepted by Fund            | The total* Rebate (benefit) amount for all providers, all fund claims processed during the claiming day.                                                                          |
| Rejected by Fund            | Any claim that has been responded to with an assessment code** (Code) other than 00 or 32.<br>The example claim for this is Receipt 0000020 which has a Code of 12 on the report. |
| Total Submitted             | The total number of claims submitted.<br>Includes claims that have been Autovoided Cancelled, Voided.                                                                             |
| Claims Voided               | Any claim response that has been Voided (Rejected) by the User for Rebate Estimate (Quote) purposes.                                                                              |
| Claims Cancelled            | Any claim that has been cancelled by the User on the day of the original claim.                                                                                                   |
| Avoid                       | Any claim where the claim attempt was unsuccessful and therefore 'automatically' Autovoided by HealthPoint.                                                                       |

\* Cancelled, Autovoided or Voided claims are excluded from this calculation.

\*\* Please refer to Appendix A for a comprehensive list of Health Fund Response Assessment Codes and the definitions.

## 9.5 Retrieving (and Printing) HealthPoint Activity Reports

Use this procedure to retrieve any reports waiting for you (e.g. HealthClaims Activity Reports) at the HealthPoint Message Centre.

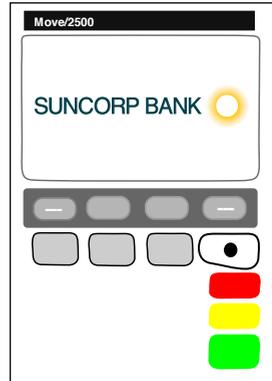

You may retrieve reports at any time. If there are no reports waiting for you to retrieve, there is no harm done.

### 9.5.1 Detailed Description

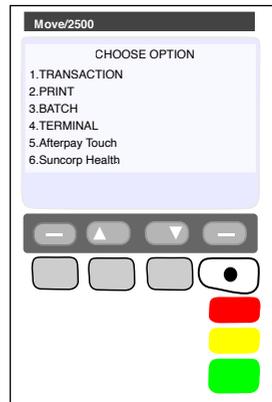

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the “swipe” screen.

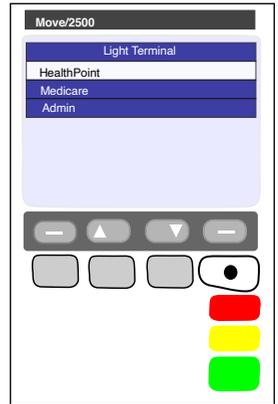

1. Press the Menu button  on the righthand side of the terminal below the screen

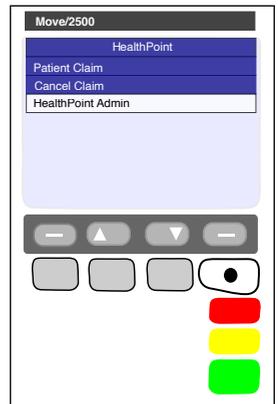

2. Key in the corresponding number for Suncorp Health
3. Enter the OPERATOR PASSWORD – Press ENTER

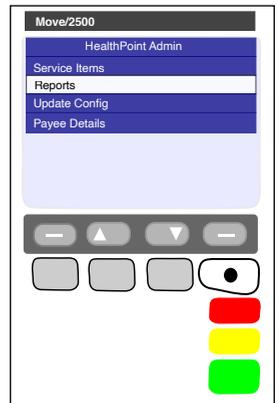

4. Select HEALTHPOINT - Press ENTER

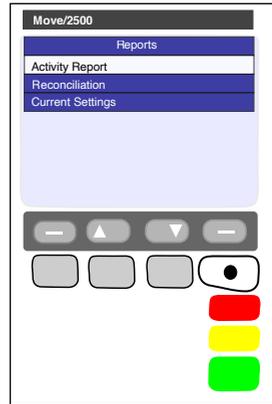

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN - Press ENTER

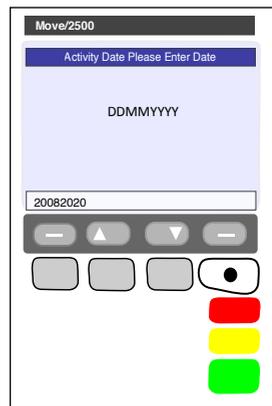

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select REPORTS - Press ENTER

7. Select ACTIVITY REPORT – Press ENTER

8. HEALTHPOINT will prompt you for the Activity Date  
This should be entered as DDMMYYYY (day month year, with no spaces in between), then press ENTER.

– HealthPoint submits a request for the Activity report from the HealthPoint Message Centre, and then prints the activity report, then displays the PRINT CONFIRMATION screen.

9. Select [DONE] to confirm the report printed

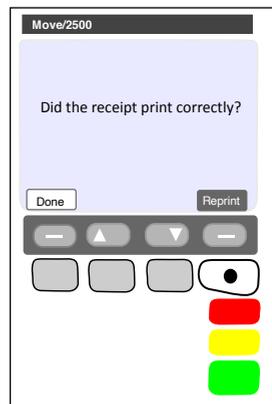

⚠ If a reprint is required, select [REPRINT].

⚠ If the print was not successful, but a reprint is not required, use the MENU  button to toggle between screens, select [SKIP].

⚠ If the print was successful, select [DONE]

HealthPoint returns to the swipe screen

👍 You have successfully printed the HealthClaims Activity Report.

## 9.5.2 About the Activity Report

The HealthClaims Activity Report shows totals for the claims, voids (rejections), and cancellations made during a particular day. The Activity Report for a day's claims will be made available the following day. This is by design to ensure that the Activity Report for a day covers the entire day's claims.

We recommend this report is printed to support reconciliation of the prior days claims.

## 9.5.3 Terminal Printout (Example Only)

|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Total Submitted       | The total number of claims submitted.<br>Includes claims that have been Cancelled or Voided.<br><i>Does not include claims detailed as AVOID on the corresponding Reconciliation Report.</i> |
| Claims Voided         | Any claim response that has been Voided (Rejected) by the User for Rebate Estimate (Quote) purposes.                                                                                         |
| Claims Cancelled      | Any claim that has been cancelled by the User on the day of the original claim.                                                                                                              |

## 9.6 Changing the Practitioner List

Occasionally you may need to modify the list of practitioners stored by HealthPoint, perhaps because a locum is visiting your practice. To update the Practitioners on your terminal, you will need to contact the HealthPoint Helpdesk on 1300 301 692.

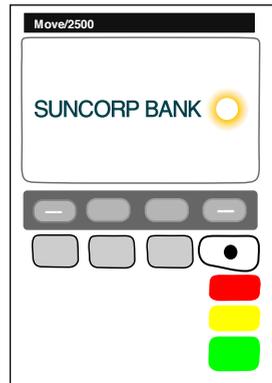

Once HealthPoint have registered your new practitioner in the System, you will be able to download an update to your terminal.

### 9.6.1 Detailed Description

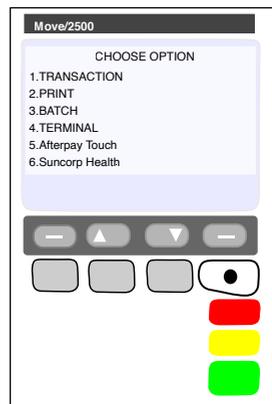

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the “swipe” screen.

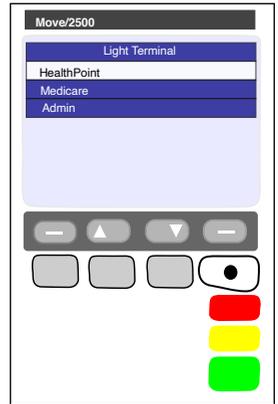

1. Press the Menu button  on the righthand side of the terminal below the screen

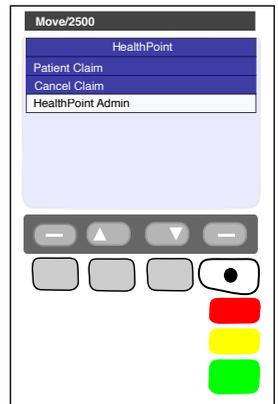

2. Key in the corresponding number for Suncorp Health
3. Enter the OPERATOR PASSWORD – Press ENTER

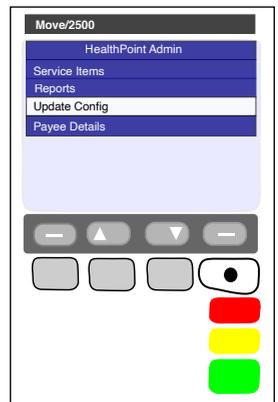

4. Select HEALTHPOINT - Press ENTER

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN - Press ENTER

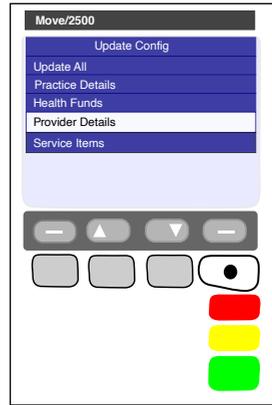

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select UPDATE CONFIG - Press ENTER

7. HealthPoint displays the UPDATE CONFIG screen.
8. Select PROVIDER DETAILS. HealthPoint will retrieve all available provider updates and will print the applied changes. You will be prompted to confirm the updates have printed correctly. Select [DONE].

👍 You have successfully updated the Practitioners on your HealthPoint Terminal.

## 9.7 Changing the Item List

Occasionally you may need to modify the list of service items stored by HealthPoint, perhaps because you have added a service to those performed in your practice, or to adjust your fee structure.

Use this procedure to maintain the list of items.

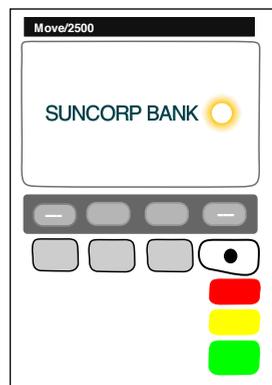

Use this procedure to edit your ancillary item codes only, edit your MBS item codes for Medicare claiming according to the instructions in the Suncorp Bank Medicare Easyclaim User Guide.

### 9.7.1 Detailed Description

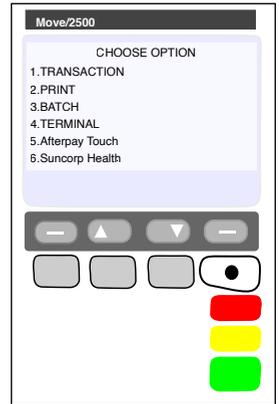

For a brief summary of this procedure, please refer to the Quick Reference Section.

➡ Start from the “swipe” screen.

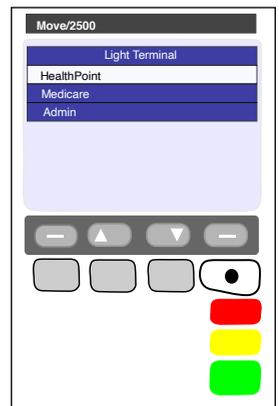

1. Press the Menu button  on the righthand side of the terminal below the screen

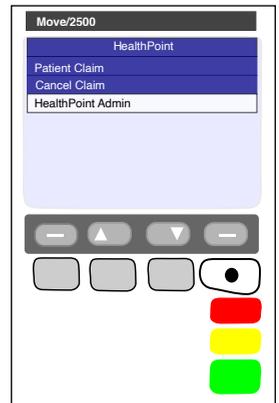

2. Key in the corresponding number for Suncorp Health
3. Enter the OPERATOR PASSWORD - Press ENTER

4. Select HEALTHPOINT - Press ENTER

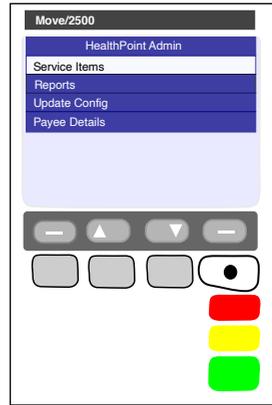

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN - Press ENTER

6. Select SERVICE ITEMS. HealthPoint displays the SERVICE TYPE screen.

This list of service types will depend on the service types you have activated on your terminal.

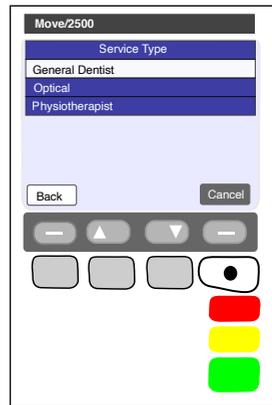

7. Select the service type from the item list you want to modify.

Note: The terminal will show the Modalities configured on your terminal.

For example: OPTICAL, DENTAL, etc.

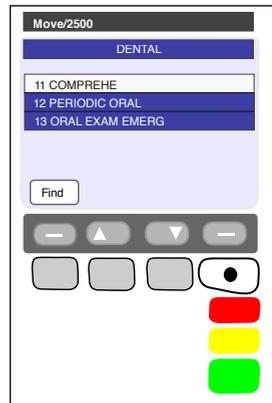

Note: For some service types, this screen shows more options.

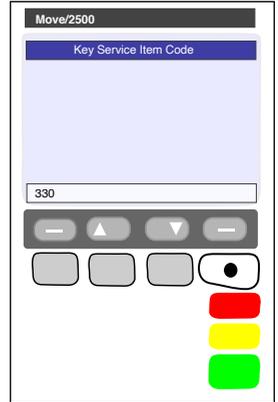

- HealthPoint will retrieve a list of items known to the terminal.

8. Perform one (or more) of the following actions:

- To see more screens of items, use arrow keys, or select [FIND] (to add an item to the end of the list)

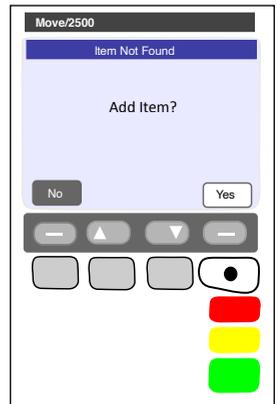

- Select [FIND]. HealthPoint displays the FIND ITEM screen.
- (a) Enter the item you wish to add, Press ENTER

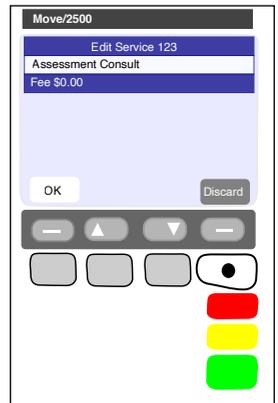

HealthPoint searches the existing list of item numbers. If the new item is not on the list, HealthPoint displays the ITEM NOT FOUND screen.

- (b) Select [YES]. HealthPoint displays the EDIT SERVICE screen.

- (c) Edit the item details, as described under Editing Item Details.

To edit an item already on the list (e.g. to change the standard fee)

- (a) Select the item to edit from the list, or by selecting [FIND] key.

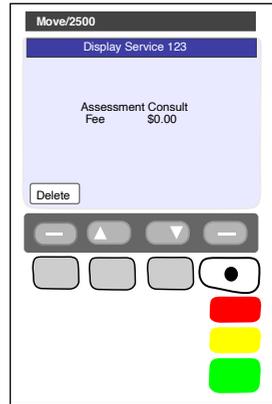

HealthPoint displays the DISPLAY SERVICE screen, showing the item's current details.

- (b) Select [EDIT].
- (c) Edit the item details, as described under Editing Item Details.

🗨 To delete an item, (e.g. because you don't perform that service):

- (a) Select the item to edit from the list, or using the [FIND] key.
- (b) Press the MENU button to toggle between screens, select [DELETE].
- (c) Press ENTER to confirm you want to delete the item. HealthPoint deletes the item from the list.

👍 You have modified the item list.

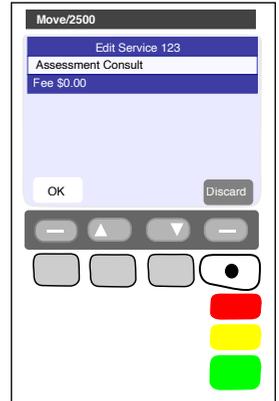

## 9.7.2 Editing Item Details

This section describes the details you may modify when adding or editing a HealthClaims ancillary item.

Note: MBS items require additional data and are described in the Medical Services User Guide.

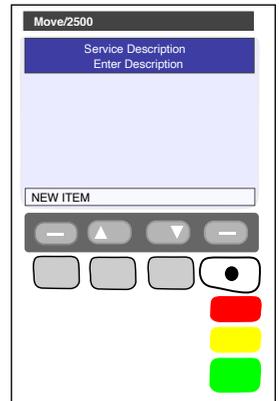

- ➡ Start from the EDIT SERVICE screen. To access this, Find the item you want to modify, and select [EDIT]

1. Perform one of the following actions:
  - To edit the item name, select Item Description, press [ENTER]. HealthPoint displays the SERVICE DESCRIPTION screen.

Enter the item's name and then press ENTER. HealthPoint displays this item name on the services item selection screen and on the claim receipts.

To enter letters, press the key labeled with the letter one or more times, according to the letter's position. For example, the 2 key is labeled "ABC". Hold down the key until the chosen letter appears.

- ① To edit the fee, select FEE

HealthPoint displays the SERVICE FEE screen.

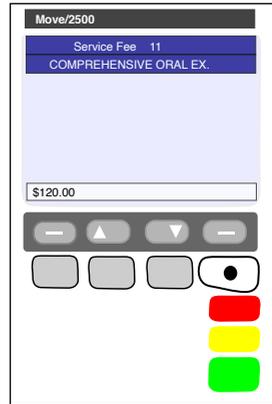

2. Enter the fee for the service, then press ENTER.  
HealthPoint allows you to edit this fee as you process the claim. For example, some practices offer concession rates for some patients. You would have to edit the fee when creating the claim.

3. Select [OK] then press [NEXT] to save the changes you have just made.

HealthPoint returns to the DISPLAY SERVICE screen.

— Go back to the procedure you were following.

- 👍 You have edited the item details.

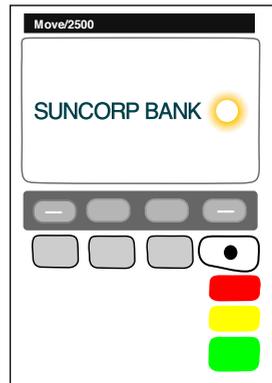

## 9.8 Changing the Practice Details

HealthPoint prints your practice's name, address, and phone number at the top of all HealthClaims receipts. To change the information displayed on your HealthPoint receipts, call the HealthPoint helpdesk on 1300 301 692 and your updated details will be recorded and sent to the terminal for retrieval.

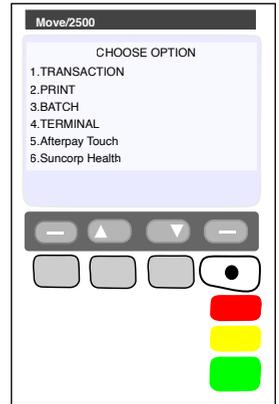

### 9.8.1 Detailed Description

- ↻ Start from the "swipe" screen.

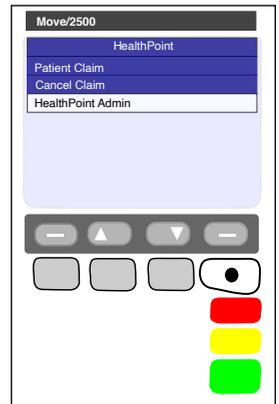

1. Press the Menu button  on the righthand side of the terminal below the screen

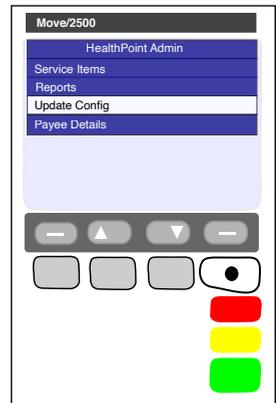

2. Key in the corresponding number for Suncorp Health
3. Enter the OPERATOR PASSWORD - Press ENTER
4. Select HEALTHPOINT - Press ENTER

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN - Press ENTER

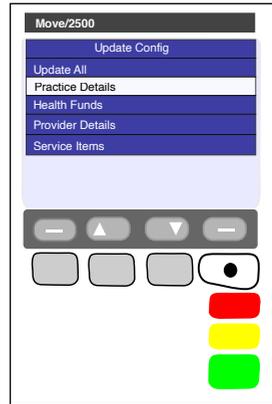

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select UPDATE CONFIG - Press ENTER

7. HealthPoint displays the UPDATE CONFIG screen.
  8. Select Practice Details, press ENTER
- 🕒 HealthPoint will retrieve all PRACTICE DETAIL updates and apply them to the terminal.

The Terminal will print all updated details

👍 You have edited the Practice details.

# 10. MOVE5000

## 10.1 Creating a HealthPoint Claim against a Health Fund

### 10.1.1 Detailed Description

For a brief summary of this procedure, see the Quick Reference Section.

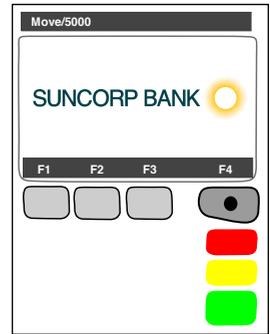

- The Move 5000 has an interactive screen. To select a menu option, simply ‘touch’ the option on the screen itself.
- Use the F2 (Up)/F3 (Down) keys to highlight the menu option you wish to select
- Use the TOUCH option or ENTER key to action your selections.

**Note: The terminal should be configured to use Bluetooth to the base when out of the cradle for HealthClaims.**

 Start from the “swipe” screen.

1. Swipe the patient’s health fund card.

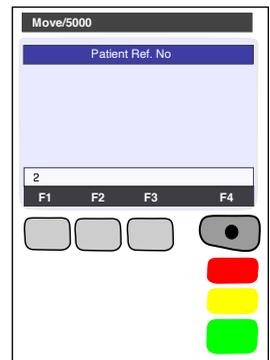

If the card won’t swipe, you cannot proceed with the claim. Our agreement with the health funds requires the patient to be present and to have a valid health fund card to make a claim.

HealthPoint displays the health fund patient reference screen

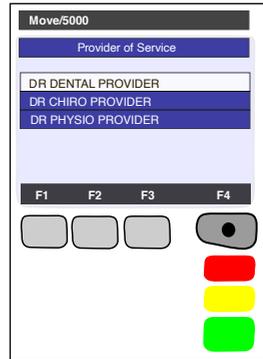

2. Enter the patient reference number (on their health fund card) then press ENTER.

Note: You do not have to enter a ‘leading zero’. For example, if the patient is numbered 01 on the card, just enter 1 into HealthPoint

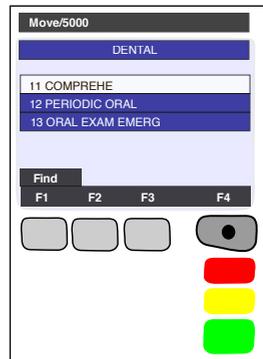

HealthPoint displays the Provider of Service screen

3. Select the servicing provider from the list
  - To see more screens of providers, use the F3 (Down) or F2 (Up) keys
  - If the practitioner is not on the list, but has been registered with HealthPoint, see the section of this guide titled 'Adding a Practitioner'
  - If the Provider is not registered with HealthPoint please contact the HealthPoint Helpdesk on 1300 301 692 to add the new provider to the HealthPoint system.

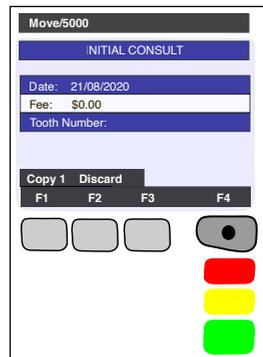

HealthPoint displays a list of services applicable to the practitioner selected. For example, if you select DR DENTAL PROVIDER as the practitioner, the services displayed might look like this.

4. Select and confirm up to sixteen service items from the services screen.
  - 4(a) Select a service item from the list displayed on the services screen

HealthPoint displays the ADD SERVICE screen

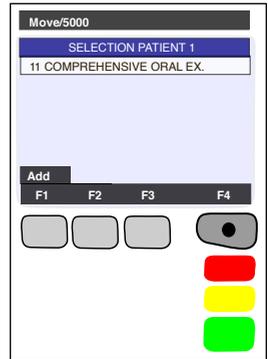

- 4(b) If you wish to edit the fee, select FEE, key in the amount, press [ENTER]. If the item and fee are correct, select NEXT to add the item to the claim.

This screen shows the items you have added to the claim for Patient 1.

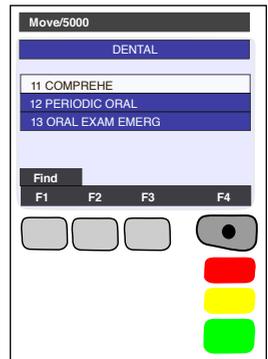

4(c) Either select [ADD] to select more items (go back to step 4(a)), or press [ENTER] to proceed, go to step 4(f).

Each of these steps (4(a) – 4(c)) has a number of options which are shown in more detail below. For more information on adding items to claims, see steps 4(d) to 4(f) below. To proceed with processing the claim, go to step (5).

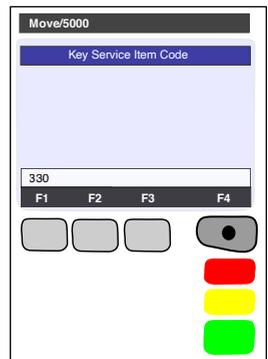

4(d) At the SERVICES screen shown below, select an item from the list, then go on to the next step.

- View the items you have already selected.
- To see more screens of items from the menu, use the F3 [Down] AND F2 [Up] keys.
- Go to part 4(f) of this step.
- Select [FIND] to find an item in the list.

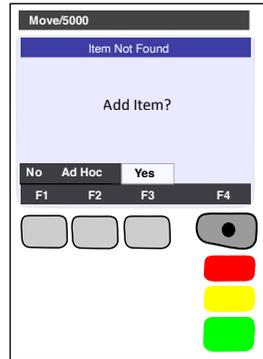

HealthPoint displays the KEY SERVICE screen.

- If the item code is not in the list, HealthPoint displays the ITEM NOT FOUND screen.

Answer the question by selecting one of the following:

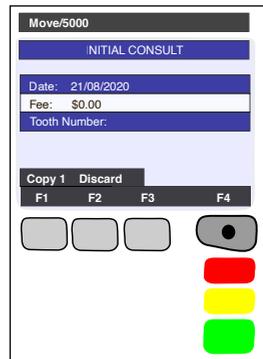

- ⓘ If you select [AD-HOC], HealthPoint adds the item to this claim, but not to your regular list of items. HealthPoint displays the AD-HOC SERVICE screen. Go to step 4(e).
- ⓘ If you select [YES], HealthPoint adds the item both to this claim, and to your regular list of items. HealthPoint displays the NEW SERVICE screen. Go to step 4(e).
- If you select [NO], HealthPoint returns to the FIND ITEM screen. Press CANCEL to go back to the service list. Go to step 4(d).

After you have selected an item from the list, HealthPoint displays the ADD SERVICE screen, showing the details of the item you just selected.

4(e) To confirm your selection of this item (i.e. to add it to your claim), press [ENTER], and then go on to step 4(f).

- ⓘ Alternatively, perform one (or more) of the following actions: To discard this item, if you decide not to select it, select [DISCARD].
- ⓘ HealthPoint returns to the item list screen. Go back to part 4(a) of this step.
- To copy the current item, select [COPY]. HealthPoint copies the item, as displayed on the screen, to your claim. It then displays the copy of the item on the screen as a new current item. You can now make changes to this new copy of the item, such as the body part. HealthPoint displays the number of copies made next to the COPY key.
- Go back to the top of this part 4(e) of this step.

- To adjust the date of service, select the DATE, Press ENTER

HealthPoint displays the SERVICE DATE screen

- If the date of service is more than a day ago, select 'OTHER', then enter the date as one big number in the format DDMMYYYY (day month year, with no spaces in between), then press ENTER.

Note: A claim cannot be made for a service to be delivered at a future date.

- Go back to the top of this part 4(e) of this step.
- To adjust the fee for this service, select FEE.

HealthPoint displays the SERVICE FEE screen.

HealthPoint displays the fee stored in the item list. Enter the correct fee by typing over the fee displayed, and then press ENTER.

This does not change the "standard" fee on the item list, only for this instance for this patient. It is possible to select several copies of an item, each with a different fee.

Note: The fee entered must always be equal to the amount actually charged to the patient including discounted amounts.

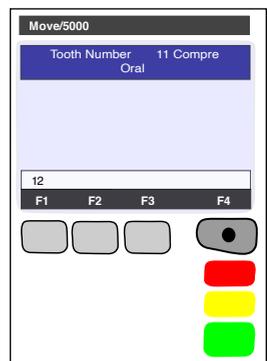

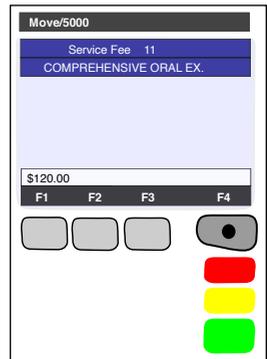

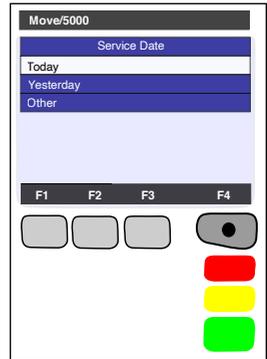

- Go back to the top of this part 4(e) of this step.

- To adjust the Tooth Number (dentists only), select TOOTH NUMBER.

HealthPoint displays the TOOTH NUMBER screen.

Enter the two-digit ADA (Australian Dental Association) standard tooth number, and then press ENTER.

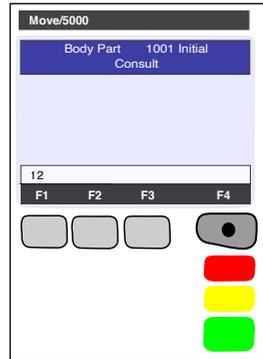

- ↩ Go back to the top of this part 4(e) of this step.

- To adjust the BODY PART (Physiotherapists only), select BODY PART.
- HealthPoint displays the BODY PART screen.

Enter the body part for this item, and then press ENTER

↩ Go back to the top of this part 4(e) of this step.

After you have pressed ENTER, HealthPoint displays the SELECTION PATIENT screen.

This screen shows the items added to your claim.

4(f) To make the claim with the items displayed, press ENTER, then go on to step 5.

Alternatively, perform one (or more) of the following actions:

🗨 To add another item, select [ADD].

HealthPoint displays the SERVICES screen.

↩ Go back to the top of this step (step 4a).

🗨 To remove an item from your selection, select the item. HealthPoint displays the ADJUST SERVICE screen. Select [DISCARD].

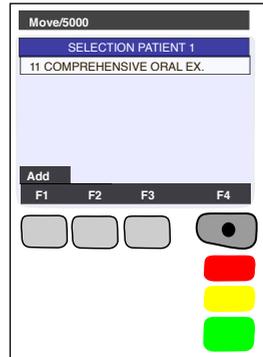

↩ Go back to the top of 4(f).

🗨 To adjust an item (or review it), select the item.

HealthPoint displays the ADJUST SERVICE screen.

Make any required adjustments (e.g. to fee, body part, tooth number, etc.) as described in part 4(e) of this step then press ENTER.

– Go back to the top of 4(f).

After you have pressed ENTER, HealthPoint displays the HEALTH FUND 'summary' screen.

- To submit this Healthclaim to the appropriate health fund, select [SUBMIT]

Alternatively, perform one (or more) of the following actions:

To add another patient to this claim, select [ADD]

To see more screens of items, select [F3 - down] or [F2 - Up]

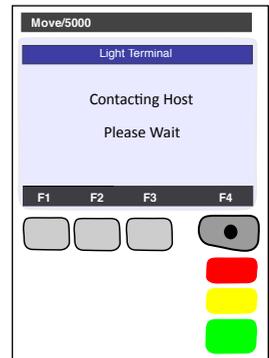

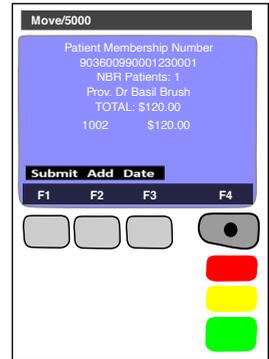

- Go back to step 2 and follow through the steps again until you return to the HEALTH FUND "summary" screen. You don't have to select the practitioner again.

Note; Any single claim may only include services performed by one practitioner. Services performed by a different practitioner must be included in a separate claim.

Once you have pressed SUBMIT, HealthPoint attempts to make a connection to the HealthPoint Health Message Centre.

HealthPoint displays a message on the screen, which indicates what it is currently doing. These messages include:

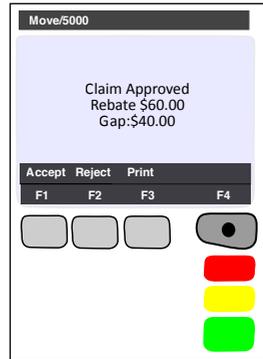

- CONTACTING HOST, PLEASE WAIT

After HealthPoint has finished submitting the claim and receiving the health fund's response, it prints a copy of the claim receipt. HealthPoint prints an assessment, and then displays the HEALTH FUND "assessment" screen.

The printed assessment shows the health fund's responses to each item and to the claim as a whole.

A response of "00" or "0000" means the claim or item has been approved. Explanations of the other responses are detailed in Appendix A: Health Fund Responses.

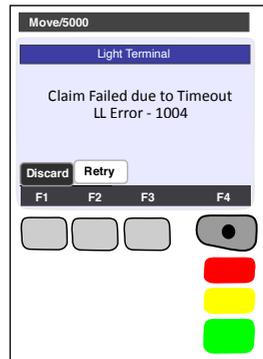

ⓘ If an error occurs during the claim submission, HealthPoint displays the HEALTH FUND "failed submission" screen.

Answer the question by selecting [DISCARD], or [RETRY].

ⓘ If you select [RETRY], HealthPoint tries to send the claim again.

ⓘ If you select [DISCARD], HealthPoint discards the claim completely, and then returns to the "swipe" screen.

➔ Go to step 1.

Most errors that occur during a claim submission are one-offs. We recommend you try again (select [RETRY]).

If the error occurs again, call the HealthPoint HealthClaims Help Desk on 1300 301 692.

ⓘ If the Health Fund has rejected the claim, see Health Fund Responses to HealthClaims for information on what to do next.

Advise the patient on the health fund's rebate of the claim and ask them if they accept it.

✍ Have the patient sign the health fund assessment.

✍ Verify the patient's signature.

File the patient-signed and verified assessment. Retain for two years.

You can answer HealthPoint's question by selecting [ACCEPT] or [REJECT]

🗨 If you select [ACCEPT],

Go to step 7.

If you select [REJECT],

🕒 HealthPoint attempts to make a connection to the HealthPoint Message Centre to send a claim rejection, in much the same way when you submitted the claim in step 5.

🗨 If an error occurs during the claim submission, HealthPoint displays the HEALTH FUND "failed submission" screen

Answer the question by selecting one of the following:

🗨 If you select [DISCARD], HealthPoint discards the rejection, and then returns to the "swipe" screen. If you select [RETRY], HealthPoint tries to REJECT the claim again.

This means the claim, which has gone through to the health fund, remains in force. To cancel it, see Cancelling a HealthClaim.

After HealthPoint has finished rejecting the claim and receiving the health fund's response, it prints a copy of the rejection receipt.

🗨 If the health fund does not accept the rejection, see Health Fund Responses to HealthClaims for information on what to do next.

🗨 If the health fund accepts the claim rejection, HealthPoint displays the VOID APPROVED screen.

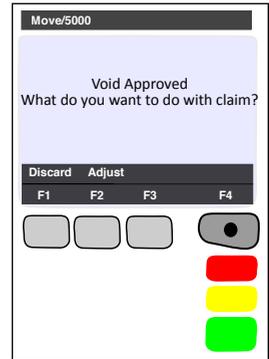

Answer the question by selecting one of the following:

If you press [DISCARD], HealthPoint returns to the "swipe" screen.

Go to the end of the procedure.

If you press [ADJUST], HealthPoint returns to the HEALTH FUND summary screen. Adjust (change) the claim and submit it again

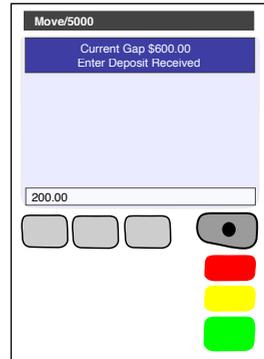

Go to step 5

6. Once the claim has been submitted, HealthPoint displays the DEPOSITS RECEIVED screen.

If you have already received monies from the patient, perhaps by way of a deposit or down payment, enter that amount, and then press ENTER.

- ! If there was no deposit paid, leave the amount as zero and press ENTER. HealthPoint adjusts the gap amount by the amount you just entered.

7. If there are monies owing (because the rebate did not cover the fees for the services rendered), HealthPoint displays the METHOD OF PAYMENT screen.

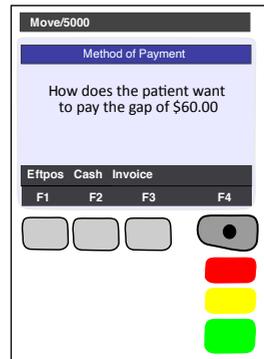

Answer the question by selecting [EFTPOS], [CASH], [INVOICE]

- ! If you selected [EFTPOS], process the EFTPOS transaction according to the Suncorp Bank's EFTPOS Merchant Facilities Quick Reference Guide. If your terminal is Multi Merchant, you may be required to select the Merchant for payment.

\* Please call the HealthPoint HealthClaims Help Desk on 1300 301 692 for assistance if you wish to map your Providers to the available Merchants. This will eliminate the requirement to select the Merchant at the time of payment.

- ! If you selected [CASH], HealthPoint will print receipts. HealthPoint will print receipts.

- ! If you selected [INVOICE], HealthPoint will print accounts. HealthPoint prints a receipt or account for the practice, and then displays the PRINT CONFIRMATION screen.

HealthPoint will print receipts.

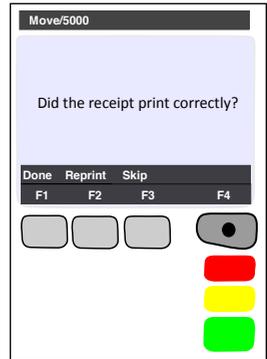

Wait for the receipt to print, then select [DONE]

- 🗨 Select [DONE] if the receipt is correct. Give the receipt to the patient.

Select [REPRINT] if the receipt did not print correctly.

- Give the receipt to the patient. HealthPoint returns to the “insert/swipe” screen

You have finished creating a HealthClaim.

## 10.2 About the HealthClaims Receipt

The HealthClaims Receipt is a paper record of the claim sent to the health fund via HealthPoint.

### 10.2.1 Terminal Printout (Example Only)

| HealthPoint                                                                                                                                                                                                              |                 |          |         |          |  |

## 10.3 Cancelling a HealthPoint Claim

Use this procedure to cancel a HealthClaim you submitted and which the patient accepted earlier today.

Note: You need the patient's health fund card in order to cancel the claim. The health funds will only accept the cancelling of a claim on the same day it was submitted.

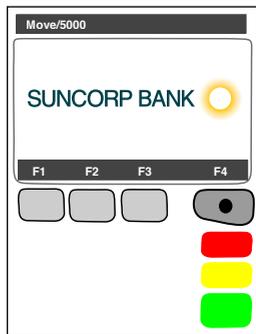

Note: The day ends at midnight Sydney Time, so claims submitted before midnight Sydney time cannot be cancelled after midnight Sydney time, irrespective of your local time zone. The health funds agreed operating hours mean that the HealthClaims service may not be available at this hour.

### 10.3.1. Detailed Description

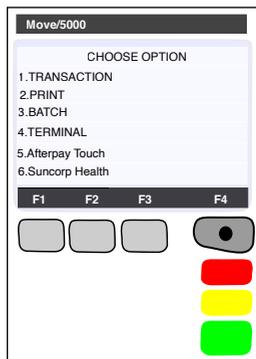

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the "swipe" screen.

1. Press the Menu button  on the righthand side of the terminal below the screen

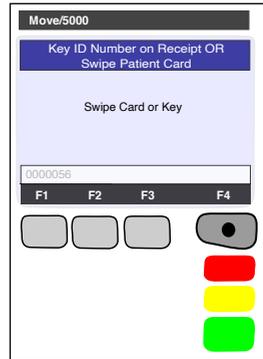

2. Key in the corresponding number for Suncorp Health
3. If you have set up an operator ID on your HealthPoint you will be prompted to enter the OPERATOR PASSWORD
4. Enter the OPERATOR PASSWORD - press ENTER

5. Select CANCEL CLAIM

In order to cancel a claim, you must first find the claim.  
HealthPoint will display the FIND CLAIM screen.

6. Perform one of the following actions to find a specific claim,

- Enter the claim receipt number, which you can find on the top of the printed copy of the claim, and press ENTER.

You only need the second part of the number after the space.

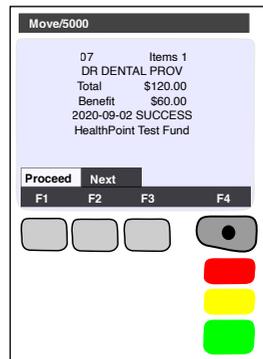

Note: You do not need to key in all of the zeros at the front of the claim number. For example, to find claim 000020, you only need to key in 20.

- Or To find claim associated with a membership, Swipe the Health Fund Card used to claim with.

HealthPoint will connect to the HealthPoint Claim server and find the claim for cancellation

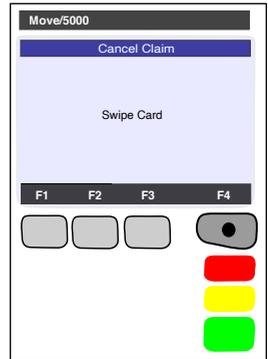

7. To cancel this HealthClaim with the appropriate health fund, select [PROCEED]

- If you have already swiped the patient's card to find the claim, no further card swipe is required.

- If you have found the claim by entering the Claim ID, HealthPoint displays the CANCEL FUND CLAIM screen and prompts you to swipe the patient’s card.

Note: If the patient is no longer at your practice and you do not have their card, you CANNOT cancel the claim. The health funds only permit cancellation if you use the health fund’s card in the presence of the patient on the same day that the claim was submitted. The day finishes at midnight Sydney time.

 HealthPoint attempts to make a connection to the HealthPoint Message Centre.

 If an error occurs during the claim submission, HealthPoint displays the HEALTH FUND “failed submission” screen.

Answer the question by selecting one of the following:

-  If you select [RETRY], HealthPoint tries again to cancel the claim.
-  If you select [DISCARD], HealthPoint discards the attempt to cancel the claim, and then returns to REVIEW CLAIM screen.

 Go to step 8.

After HealthPoint has finished cancelling the claim and receiving the health fund's response, it prints a copy of the cancelled claim receipt, then displays the PRINT CONFIRMATION screen.

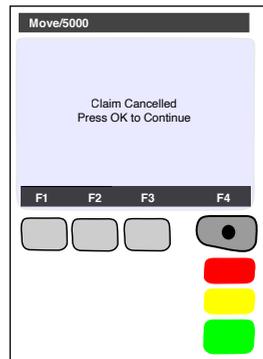

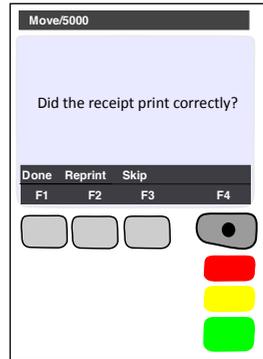

The receipt shows the health fund's responses to the cancellation. A response of "00" means the cancellation has been accepted and approved.

Explanations of the other responses are detailed in the Cancellation and Rejection Responses section of Appendix A: Health Fund Responses.

8. Select [DONE], if the receipt is correct. Select [NO REPRINT] if it has printed incorrectly.
  -  Have the patient sign the cancellation receipt.
  -  Verify the patient's signature. File the patient-signed and verified cancellation receipt. Retain for two years

HealthPoint prints a second copy of the cancelled receipt or account for the patient, and then displays the PRINT CONFIRMATION screen again.

9. If the second copy of the receipt has printed successfully, then select [DONE].  
HealthPoint displays the CLAIM CANCELLED screen.
10. Press [ENTER] to return to the HealthPoint menu
11. Press [CANCEL] to return to the idle menu
  -  You have finished cancelling a HealthClaim!

## 10.4 Printing a HealthPoint Reconciliation Report

Use this procedure to print the daily HealthClaims Reconciliation Report.

Reconciliation for a day's claims will be made available the following day. This is by design to ensure that the Reconciliation Report for a day covers the entire day's claims.

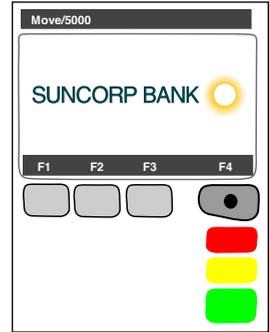

We recommend this report is printed to support reconciliation of the prior days claims.

### 10.4.1 Detailed Description

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the "swipe" screen.

1. Press the Menu button  on the righthand side of the terminal below the screen

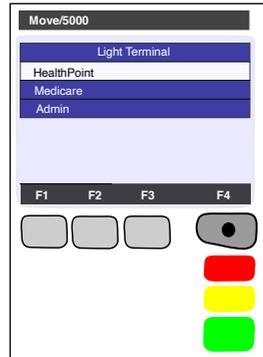

2. Key in the corresponding number for Suncorp Health

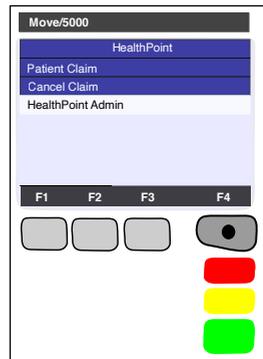

3. Enter the OPERATOR PASSWORD

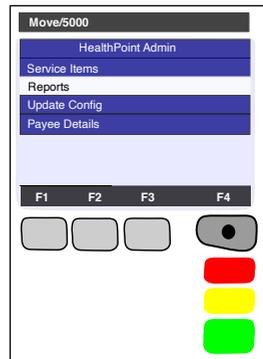

4. Select HEALTHPOINT

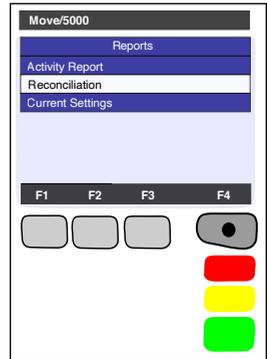

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select REPORTS

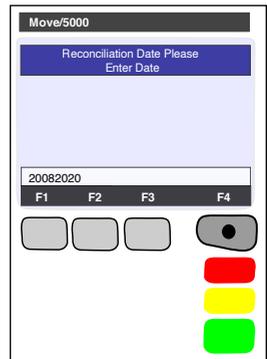

7. Select RECONCILIATION

8. HEALTHPOINT will prompt you for the Reconciliation Date

This should be entered as DDMMYYYY (day month year, with no spaces in between), then press ENTER.

- HealthPoint submits a request for the Reconciliation report from the HealthPoint Message Centre, and then prints the reconciliation report, then displays the PRINT CONFIRMATION screen.

9. Select [DONE] to confirm the report printed

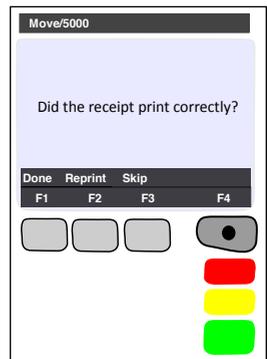

- If a reprint is required, select [REPRINT].
- If the print was not successful, but a reprint is not required, select [SKIP].

🗨 If the print was successful, select [DONE]

Press CANCEL to return to the swipe screen

HealthPoint returns to the swipe screen

- 👍 You have successfully printed the HealthClaims Reconciliation Report.

## 10.4.2 About the Healthclaims Reconciliation Report

HealthClaims Reconciliation report is HealthPoint's record of the claims sent through to each health fund during a particular day. Each practitioner is shown in a separate section. The Reconciliation report for a days claims is available the following day.

## 10.4.4 Reconciliation Report Definitions

| Reconciliation Report Terms | Definition                                                                                                                                                                        |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Customer ID                 | HealthPoint ID.<br>Should you need to contact the HealthPoint Support team you will need this for identification.                                                                 |
| Date of Claims              | The date the claims were processed on.                                                                                                                                            |
| Period Covered              | The time period on the claiming date this Reconciliation Report covers.                                                                                                           |
| Receipt                     | The HealthPoint claim receipt number                                                                                                                                              |
| Charge                      | The practice charge for the HealthPoint claim                                                                                                                                     |
| Benefit                     | The benefit (rebate) amount the Health Fund responded with.                                                                                                                       |
| Gap                         | The difference between the Charge and the Benefit.<br>Represents the patients out of pocket cost for the services provided.                                                       |
| Code                        | The Health Fund response or assessment code for the HealthPoint claim.                                                                                                            |
| Fund Total                  | The total* for each column for 'this' provider for 'this' fund.                                                                                                                   |
| Total                       | The total* for each column for 'this' provider for all fund claims processed during the claiming day.                                                                             |
| Total Fees                  | The total* Fees for each column for all providers, all fund claims processed during the claiming day                                                                              |
| Total Rebate                | The total* Rebate (benefit) amount for all providers, all fund claims processed during the claiming day.                                                                          |
| Accepted by Fund            | The total* Rebate (benefit) amount for all providers, all fund claims processed during the claiming day.                                                                          |
| Rejected by Fund            | Any claim that has been responded to with an assessment code** (Code) other than 00 or 32.<br>The example claim for this is Receipt 0000020 which has a Code of 12 on the report. |
| Total Submitted             | The total number of claims submitted.<br>Includes claims that have been Autovoided Cancelled, Voided.                                                                             |
| Claims Voided               | Any claim response that has been Voided (Rejected) by the User for Rebate Estimate (Quote) purposes.                                                                              |
| Claims Cancelled            | Any claim that has been cancelled by the User on the day of the original claim.                                                                                                   |
| Avoid                       | Any claim where the claim attempt was unsuccessful and therefore 'automatically' Autovoided by HealthPoint.                                                                       |

\*Cancelled, Autovoided or Voided claims are excluded from this calculation.

\*\*Please refer to Appendix A for a comprehensive list of Health Fund Response Assessment Codes and the definitions.

## 10.5 Retrieving (and Printing) HealthPoint Activity Reports

Use this procedure to retrieve any reports waiting for you (e.g. HealthClaims Activity Reports) at the HealthPoint Message Centre.

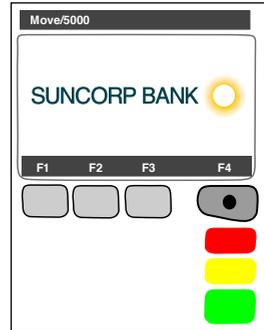

You may retrieve reports at any time. If there are no reports waiting for you to retrieve, there is no harm done.

### 10.5.1 Detailed Description

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the “swipe” screen.

1. Press the Menu button  on the righthand side of the terminal below the screen

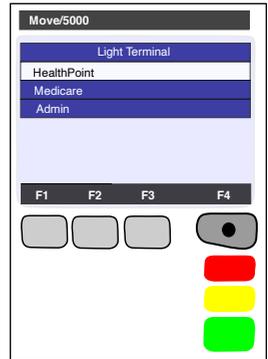

2. Key in the corresponding number for Suncorp Health

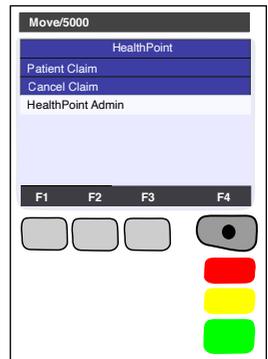

3. Enter the OPERATOR PASSWORD

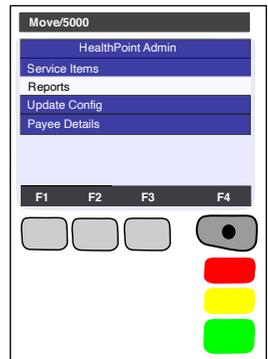

4. Select HEALTHPOINT

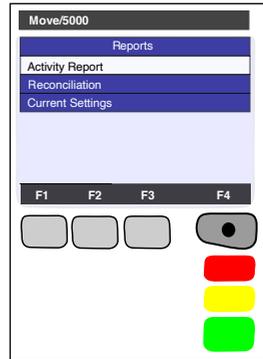

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select REPORTS

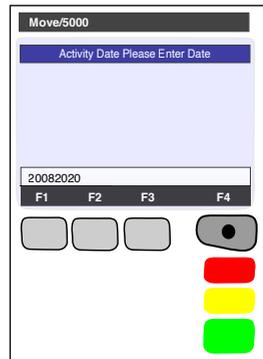

7. Select ACTIVITY REPORT

8. HEALTHPOINT will prompt you for the Activity Date  
This should be entered as DDMMYYYY (day month year, with no spaces in between), then press ENTER.

- HealthPoint submits a request for the Activity report from the HealthPoint Message Centre, and then prints the activity report, then displays the PRINT CONFIRMATION screen.

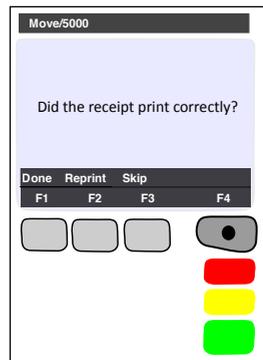

9. Select [DONE] to confirm the report printed
- 🗨 If a reprint is required, select [REPRINT].
  - 🗨 If the print was not successful, but a reprint is not required, select [SKIP].
  - 🗨 If the print was successful, select [DONE]

HealthPoint returns to the swipe screen

Press CANCEL to return to the swipe screen

- 👍 You have successfully printed the HealthClaims Activity Report.

## 10.5.2 About the Activity Report

The HealthClaims Activity Report shows totals for the claims, voids (rejections), and cancellations made during a particular day. The Activity Report for a day's claims will be made available the following day. This is by design to ensure that the Activity Report for a day covers the entire day's claims.

We recommend this report is printed to support reconciliation of the prior days claims.

## 10.5.3 Terminal Printout (Example Only)

## 10.5.4 Activity Report Definitions

| Activity Report Terms | Definition                                                                                                                                                                                   |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Total Submitted       | The total number of claims submitted.<br>Includes claims that have been Cancelled or Voided.<br><i>Does not include claims detailed as AVOID on the corresponding Reconciliation Report.</i> |
| Claims Voided         | Any claim response that has been Voided (Rejected) by the User for Rebate Estimate (Quote) purposes.                                                                                         |
| Claims Cancelled      | Any claim that has been cancelled by the User on the day of the original claim.                                                                                                              |

## 10.6 Changing the Practitioner List

Occasionally you may need to modify the list of practitioners stored by HealthPoint, perhaps because a locum is visiting your practice. To update the Practitioners on your terminal, you will need to contact the HealthPoint Helpdesk on 1300 301 692.

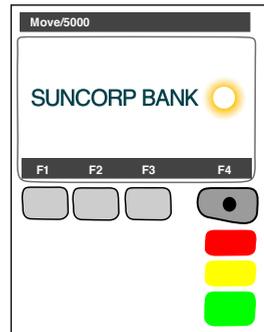

Once HealthPoint have registered your new practitioner in the System, you will be able to download an update to your terminal.

### 10.6.1 Detailed Description

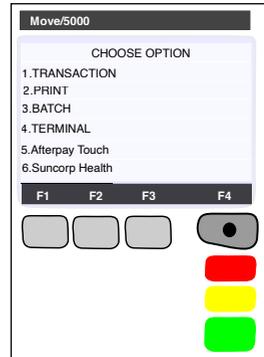

For a brief summary of this procedure, please refer to the Quick Reference Section.

 Start from the “swipe” screen.

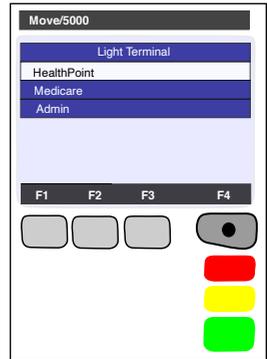

1. Press the Menu button  on the righthand side of the terminal below the screen

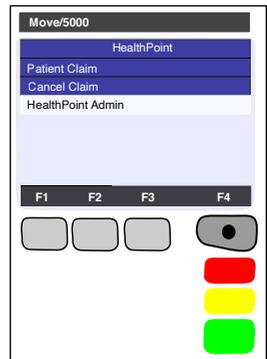

2. Key in the corresponding number for Suncorp Health
3. Enter the OPERATOR PASSWORD

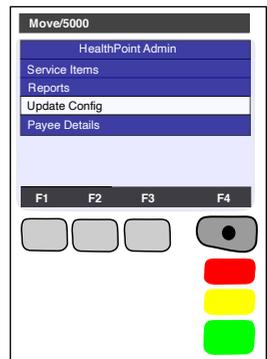

4. Select HEALTHPOINT

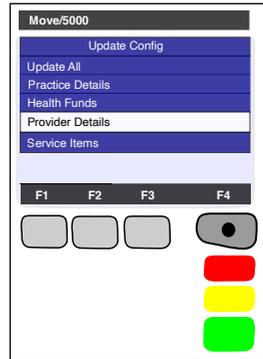

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select UPDATE CONFIG

7. HealthPoint displays the UPDATE CONFIG screen.
  8. Select PROVIDER DETAILS. HealthPoint will retrieve all available provider updates and will print the applied changes. You will be prompted to confirm the updates have printed correctly. Select [DONE].
- 👍 You have successfully updated the Practitioners on your HealthPoint Terminal.

## 10.7 Changing the Item List

Occasionally you may need to modify the list of service items stored by HealthPoint, perhaps because you have added a service to those performed in your practice, or to adjust your fee structure.

Use this procedure to maintain the list of items.

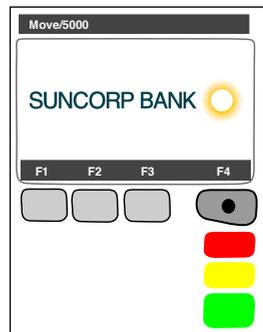

Use this procedure to edit your ancillary item codes only, edit your MBS item codes for Medicare claiming according to the instructions in the SunCorp Bank Medicare Easyclaim User Guide.

### 10.7.1 Detailed Description

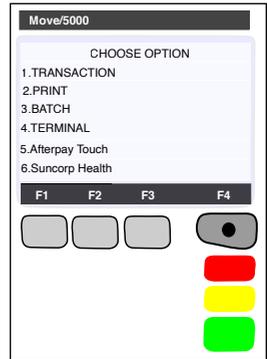

For a brief summary of this procedure, please refer to the Quick Reference Section.

- ➡ Start from the “swipe” screen.

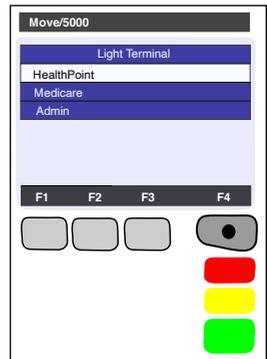

1. Press the Menu button  on the righthand side of the terminal below the screen

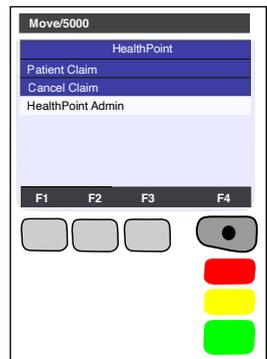

2. Key in the corresponding number for Suncorp Health
3. Enter the OPERATOR PASSWORD

4. Select HEALTHPOINT

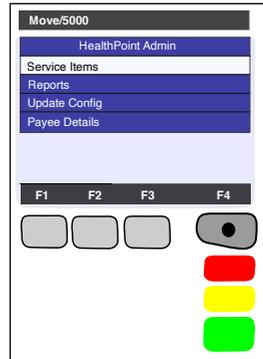

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN

6. Select SERVICE ITEMS. HealthPoint displays the SERVICE TYPE screen.

This list of service types will depend on the service types you have activated on your terminal.

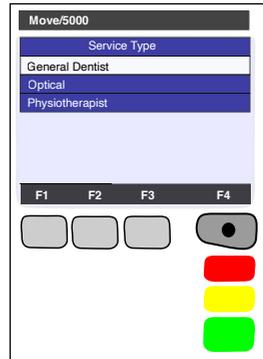

7. Select the service type from the item list you want to modify.

Note: The terminal will show the Modalities configured on your terminal.

For example: OPTICAL, DENTAL, etc.

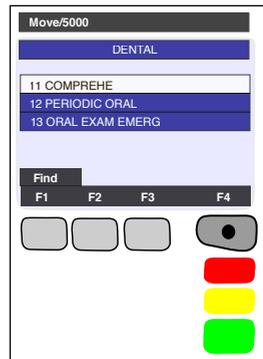

Note: For some service types, this screen shows more options.

- HealthPoint will retrieve a list of items known to the terminal.

8. Perform one (or more) of the following actions:

- To see more screens of items, use F2 (Up) or F3 (Down) keys or select [FIND] (to add an item to the end of the list):
- Select [FIND]. HealthPoint displays the FIND ITEM screen.

- (a) Enter the item you wish to add, Press ENTER

Move/5000

ⓘ To delete an item, (e.g. because you don't perform that service):

- (a) Select the item to edit from the list, or using the [FIND] key.
  - (b) Press the MENU button to toggle between screens, select [DELETE].
  - (c) Press ENTER to confirm you want to delete the item. HealthPoint deletes the item from the list.
- 👍 You have modified the item list.

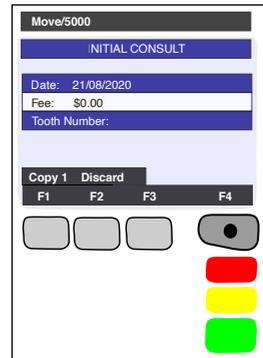

## 10.7.2 Editing Item Details

This section describes the details you may modify when adding or editing a HealthClaims ancillary item.

Note: MBS items require additional data and are described in the Medical Services User Guide.

- ↩ Start from the EDIT SERVICE screen. To access this screen find the item you wish to modify and select it.

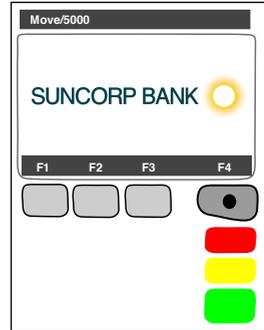

## 10.8 Changing the Practice Details

HealthPoint prints your practice's name, address, and phone number at the top of all HealthClaims receipts. To change the information displayed on your HealthPoint receipts, call the HealthPoint helpdesk on 1300 301 692 and your updated details will be recorded and sent to the terminal for retrieval.

### 10.8.1 Detailed Description

 Start from the "swipe" screen.

1. Press the Menu button  on the righthand side of the terminal below the screen

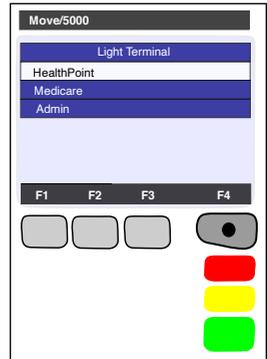

2. Key in the corresponding number for Suncorp Health

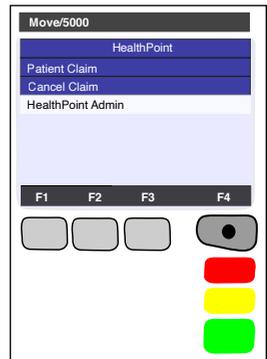

3. Enter the OPERATOR PASSWORD - Press ENTER

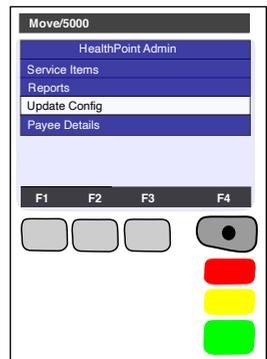

4. Select HEALTHPOINT

5. HealthPoint displays the HEALTHPOINT screen. Select HEALTHPOINT ADMIN

6. HealthPoint displays the HEALTHPOINT ADMIN screen. Select UPDATE CONFIG

7. HealthPoint displays the UPDATE CONFIG screen.
8. Select Practice Details.
  - ⌚ HealthPoint will retrieve all PRACTICE DETAIL updates and apply them to the terminal.

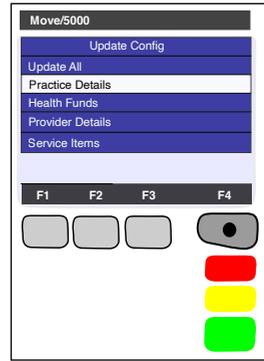

The Terminal will print all updated details

Select [DONE] to confirm.

HealthPoint returns to the Update Config menu

Press CANCEL to return to the swipe screen

- 👍 You have edited the Practice details.

## 11. Frequently Asked Questions

**Q: Can the information that I am transmitting be accessed by anyone?**

A: No, the information within the messages cannot be accessed; it is encrypted at several stages of the network.

**Q: If I turn the HealthPoint off, will I lose the information in it?**

A: No, the HealthPoint has a battery in it that will hold the information.

**Q: What should I do if my screen freezes?**

A: Simply reboot by powering the terminal off and on again at the wall, you will not lose any stored information. If that is unsuccessful you should then contact the HealthPoint helpdesk.

**Q: How do I unplug the HealthPoint?**

A: Always turn the power off to the HealthPoint before you unplug any connections. For assistance with the HealthPoint, call the HealthPoint helpdesk on 1300 301 692.

**Q: I have run out of paper, where do I get some more?**

A: From the "swipe" screen, Type in 86 and press ENTER Type in your password and press ENTER.

Type in the number of rolls required in multiples of 10 and press ENTER. (Alternatively, stationery can be ordered from [www.suncorpbank.com.au/stationery](http://www.suncorpbank.com.au/stationery))

**Q: How often should I retrieve reports?**

A: HealthPoint holds an electronic mailbox for you, which holds all of your reports from the Health Funds and HealthPoint. If you submit claims frequently then you should also retrieve reports from your mailbox frequently (e.g. If you submit daily, you should also retrieve daily).

For practices submitting claims less frequently, we recommend that this mailbox is accessed at least once a week to avoid any communications error messages, and to ensure that you receive any HealthPoint network bulletins or software change notifications.

**Q: How do I clean the HealthPoint?**

A: Do not clean with a damp cloth or water. Use a lint free cloth and a cleaning fluid specifically for cleaning computers.

### 11.1 Questions Regarding Claims to Health Funds

**Q: Can you cancel or reverse a claim?**

A: Yes, you can cancel a claim on the same day it has been submitted to the fund, provided the patient is present and has their Health Fund card. If you need to cancel a claim on a later day, you should call the Health Fund in question.

## 12. Appendix A: Health Fund Responses

The health funds provide a response for each claim and each item of a claim. Any response except "00" means the claim or item has been rejected by the Health Fund.

Likewise, the health funds provide a response to rejections and cancellations made by the patient. Unless otherwise indicated any response except "00" means the cancellation or rejection has not been processed, and the claim will stand.

Look up the response code in the tables in the following sections. Note: Not all health funds use all of the responses listed in this table.

### 12.1 Claim Responses

For each claim you submit with HealthPoint, the health fund sends a response, which HealthPoint displays and prints on the claim receipt.

All responses except "00 - APPROVED" mean the claim has been rejected or revised.

In general, if the health fund rejects the claim, the patient should settle their account in the usual manner and make a regular paper based claim with their health fund.

If the response is not in the following table, please contact the relevant health fund for an explanation.

#### **00 APPROVED**

The health fund has approved this claim.

#### **01 PROVIDER NOT APPROVED**

The health fund has not approved the provider who performed the services for electronic claiming.

Check the provider number in HealthPoint's practitioner table is correct. If it is, contact the health fund to clarify this practitioner's status.

Some health funds (e.g. Medibank Private) will only permit providers to submit claims for items within their own modality (e.g. Physiotherapists may not be able to make claims using Chiropractic codes). Claims containing items from a modality other than the providers will get this response. Check the practitioner's modality with the health fund.

#### **02 CONTACT FUND**

Please contact the patients Health Fund for additional information.

#### **03 INVALID PROVIDER NO**

The provider number supplied is not valid.

HealthPoint should have trapped this error before submitting the claim, so please report this to the HealthPoint HealthClaims Help Desk immediately.

#### **04 PLEASE RETAIN CARD**

The health fund has asked you to retain the patient's card, if possible. Call the relevant health fund for information on what to do next.

#### **10 REFER CLAIM TO FUND**

The health fund has requested that this claim be referred to them for manual assessment. Call the relevant health fund for information on what to do next.

#### **12 TRANSACTION DECLINED**

The health fund has not approved the transaction. It has not given a specific reason. Call the relevant health fund for information on what to do next.

#### **14 CARD NO IS NOT VALID**

The health fund does not recognise the card you swiped.

Discard the claim, re-enter the claim, and re-submit it. If you get this message again, advise the patient to contact their fund and arrange for a new card.

#### **15 ITEMS NOT ACCEPTED**

The items in this claim are not accepted by this Fund. Please contact the Fund.

#### **19 NO ITEMS ENTERED**

No service items were entered for this claim.

HealthPoint should have trapped this error before submitting the claim, so please report this to the HealthPoint HealthClaims Help Desk immediately.

#### **21 CONTACT HELP DESK**

The system has taken no action for this claim. Please contact the HealthPoint HealthClaims Help Desk.

#### **30 SYSTEM DATA ERROR**

This is a serious error, so please report it to the HealthPoint HealthClaims Help Desk immediately.

#### **32 COMPLETED PARTIALLY**

Only part of the claim has been processed.

The action required will depend on which part of the claim has been processed. Contact the HealthPoint HealthClaims Help Desk for advice on how to proceed.

#### **40 MEMBERSHIP NOT COVERED**

The patient's fund membership does not cover the services provided. Advise the patient to check their cover with their health fund.

**42 MEMBERSHIP CEASED/SUSP**

The patient's fund membership has either ceased or been suspended. Advise the patient to check with their health fund.

**51 MEMBERSHIP UNFINANCIAL**

The patient's health fund membership has not been paid. Advise the patient to check with their health fund.

**54 CARD HAS EXPIRED**

The patient's health fund card has expired.

You must have a valid card to claim via HealthPoint. Advise the patient to contact their fund and arrange for a new card.

**56 INVALID MEMBERSHIP NO**

The health fund does not recognise the card you swiped.

Discard the claim, re-enter the claim, and re-submit it. If you get this message again, advise the patient to contact their fund and arrange for a new card.

**57 NO ANCILLARY COVER**

The patient does not have ancillary cover. Advise the patient to check their cover with their health fund.

**58 TRANS NOT PERMITTED**

The system cannot process this transaction. Please contact the HealthPoint HealthClaims Help Desk.

**60 PROVIDER NOT KNOWN BY FUND**

The health fund does not recognise this provider.

Check the provider number in HealthPoint's practitioner table is correct. If it is, call the HealthPoint HealthClaims Help Desk and ask them to check the practitioner has been registered with the relevant health fund.

**61 BENEFIT LIMIT EXCEEDED**

The patient's benefit limit has been exceeded for the period specified in their policy. Advise the patient to check their cover and the relevant limits with the health fund.

**69 NO BENEFIT PAYABLE**

No benefit is payable on this claim. Advise the patient to check their cover with the health fund.

**80 PAYMENT REQUIRED BY EMPLOYER**

Payment for this claim should be referred to the patients employer.

### **83 TOO MANY PATIENTS**

Too many patients for this claim. Please reduce the number.

### **84 REQUIRES MANUAL INVOICE**

Fund to be invoiced manually.

### **91 SYSTEM BUSY-TRY AGAIN**

The system cannot process your claim at the moment.

Wait a few seconds and retry by pressing the RETRY key. Should this condition persist, please call the HealthPoint HealthClaims Help Desk.

### **92 SYSTEM UNAVAILABLE**

The system is temporarily unavailable.

Call the HealthPoint HealthClaims Help Desk, who can investigate why the system is currently unavailable.

### **93 SYSTEM PROBLEM**

The system is experiencing a problem.

Call the HealthPoint HealthClaims Help Desk, who can investigate what is going on.

### **94 DUPLICATE TRANSACTION**

The system is reporting that this transmission has been submitted more than once. HealthPoint should not have attempted this, so please report this to the HealthPoint HealthClaims Help Desk immediately.

## 12.2 Item Responses

Each claim is made up of one or more service items. When the claim is submitted, the health fund sends a response for each individual item (in addition to the response for the claim as a whole). HealthPoint prints these responses next to the item on the claim receipt.

Unless otherwise indicated, all responses except "00 - APPROVED" mean the item has been rejected.

If the response is not in the following table, please contact the relevant health fund for an explanation.

#### **00 APPROVED**

The health fund has approved this item.

#### **01 BENEFIT NOT PAYABLE**

According to the rules for this health fund, no benefit is payable on this item.

## **02 RESTRICTED ITEM**

The rebate for this item is restricted by the patient's policy, and consequently no benefit is payable for this item.

## **03 RESTRICTED ITEM**

The rebate for this item is restricted by the patient's policy, and consequently only a reduced benefit is payable for this item.

## **04 PREVIOUSLY PAID**

A benefit has already been paid for this item. Advise the patient to check their cover with the health fund.

## **05 BENEFIT LIMIT REACHED**

The patient's benefit limit for this item has been exceeded for the period specified in their policy, so no benefit has been paid. Advise the patient to check their cover and the relevant limits with the health fund.

## **06 BENEFIT LIMIT REACHED**

The patient's benefit limit for this item has been exceeded for the period specified in their policy, so a reduced benefit has been paid. Advise the patient to check their cover and the relevant limits with the health fund.

## **07 WITHIN WAITING PERIOD**

The patient does not qualify for this item because they have not completed the waiting period specified in their policy. Advise the patient to check their cover and the relevant waiting periods with the health fund.

## **08 PREREQ SRVCE REQUIRED**

A pre-requisite service is required before benefits are payable on this item. Advise the patient to check with the health fund as to what is required to qualify for benefits on this particular item.

## **09 PRE-EXISTING CONDITION**

No benefit is payable as this item applies to a pre-existing condition. Advise the patient to check with their health fund as to what benefit restrictions apply for treatment of their ailment.

## **10 ITEM NO. IS NOT VALID**

The health fund does not recognise this item number. You may not have an up-to-date list of the current items. If this is the case, please call the HealthPoint HealthClaims Help Desk and arrange for an up-to-date list to be sent to your Health Message Centre mail box.

## **11 ITEM NO. CEASED USE**

This item number is no longer in use as of the date the service was performed.

You may not have an up-to-date list of the current items. If this is the case, please call the HealthPoint HealthClaims Help Desk and arrange for an up-to-date list to be sent to your Health Message Centre mail box.

## **12 ITEM NOT FOR PROVIDER**

The health fund will not pay benefits for this item when performed by this practitioner.

Check with the health fund as to the status of the practitioner and what services the health fund will accept when performed by them.

## **13 ITEM NO. NOT APPROVED**

The health fund does not approve this item - no benefits have been paid.

Check the item number is correct. If it is, contact the health fund for clarification.

## **14 ITEM MAX USE EXCEEDED**

The health fund imposes a limit on the number of times this item may be used within a particular period, and this limit has been exceeded for this patient. Advise the patient to check with their health fund as to any restrictions it imposes on this item.

## **15 SERVICE FEE MISSING**

The health fund will not approve payment for this item unless you supply the service fee charged for this item. When you select an item, HealthPoint includes a standard fee which you can modify. Do not set this value to zero for this item.

Modify the claim, and include the service fee.

## **16 SERVICE DATE NOT VALID**

The service date supplied for this item is in the future.

HealthPoint does not allow dates in the future to be entered, so please check the date and time on HealthPoint are correct.

## **17 SERVICE DATE TOO OLD**

The date of service for this item is too far in the past.

Check the date and time on HealthPoint are correct. If it is, advise the patient to make a manual claim to their health fund.

## **18 BODY PART IS REQUIRED**

The health fund will not approve payment for this item unless you identify the body part to which the item applies.

Modify the claim and identify the body part.

**19 PATIENT NOT COVERED**

The patient was not covered for this type of service as at the date the service was performed. Advise the patient to check their cover with their health fund.

**20 NO DEPENDENT STATUS**

The patient is no longer covered as their dependent status on the policy holder ceased as at the date the service was performed. Advise the patient to check their cover with their health fund.

**21 INVALID PATIENT NO**

The patient reference number for the patient to whom this service was provided is not correct.

Check the patient number on the health fund card. For some fund cards, the first patient on the card is number 0. Correct the claim accordingly and re-submit it.

**22 MEMBERSHP NOT COVERED**

The patient's fund membership does not cover the services provided as at the date the service was performed. Advise the patient to check their cover with their health fund.

**23 MEMBERSHP CEASED/SUSP**

The patient's fund membership has either ceased or been suspended as at the date the service was performed. Advise the patient to check with their health fund.

**24 MEMBERSHP UNFINANCIAL**

The patient's health fund membership has not been paid as at the date the service was performed. Advise the patient to check with their health fund.

**25 NO ANCILLARY COVER**

The patient did not have ancillary cover as at the date the service was performed. Advise the patient to check their cover with their health fund.

**26 ITEM NOT COVERED**

The patient was not covered for this particular item as at the date the service was performed. Advise the patient to check their cover with their health fund.

**27 POSSIBLE DUPLICATE**

Check with the health fund.

**28 EXCESS APPLIED**

No benefit has been paid for this item because an excess applies. Advise the patient to check with their health fund.

**29 EXCESS APPLIED**

A reduced benefit has been paid because an excess applies. Advise the patient to check with their health fund.

**30 QUOTATION REQUIRED**

No benefit has been paid because a quotation must be supplied to the health fund prior to this item being claimed. Advise the patient to check with their health fund.

**31 QUOTATION REQUIRED**

A reduced benefit has been paid because a quotation should be supplied to the health fund prior to this item being claimed. Advise the patient to check with their health fund.

**32 EXCEEDS QUOTATION**

No benefit has been paid because the fee for this item exceeds the quotation given. Advise the patient to check with their health fund.

**33 EXCEEDS QUOTATION**

A reduced benefit has been paid because the fee for this item exceeds the quotation given. Advise the patient to check with their health fund.

**34 AGE RESTRICTION**

No benefit has been paid because the health fund applies an age restriction to this item. Advise the patient to check with their health fund.

**35 AGE RESTRICTION**

A reduced benefit has been paid because the health fund applies an age restriction to this item. Advise the patient to check with their health fund.

**36 GENDER RESTRICTION**

No benefit has been paid because the fund applies a gender restriction to this item. Advise the patient to check with their health fund.

**37 GENDER RESTRICTION**

A reduced benefit has been paid because the fund applies a gender restriction to this item. Advise the patient to check with their health fund.

**38 INVALID CHARGE**

No benefit has been paid because the health fund deems the charge for this item invalid. Check with the health fund for an explanation.

**39 NOTIONAL CHARGE**

No benefit has been paid. Check with the health fund for an explanation.

**40 CONVERTED ITEM**

No benefit has been paid. Check with the health fund for an explanation.

**41 REFER TO FUND**

No benefit has been paid. Check with the health fund for an explanation.

**42 SYSTEM PROBLEM**

The system is experiencing a problem. Call the HealthPoint HealthClaims Help Desk, who can investigate what is going on.

**44 MEDICAL CERT REQUIRED**

Medical Certificate is required.

**50 PROVIDER NOT KNOWN**

The health fund does not recognise this provider.

Check the provider number in HealthPoint's practitioner table is correct. If it is, call the HealthPoint HealthClaims Help Desk and ask them to check the practitioner has been registered with the relevant health fund.

**51 NOT ALLOWED FOR PROV.**

The health fund does not pay benefits when this service is performed by this provider. Advise the patient to check with their health fund.

**52 TOOTH NO REQUIRED**

Please enter a Tooth ID number.

**53 DOS PRIOR TO INJURY DATE**

The service date is prior to the injury date.

**54 SUBMITTED FOR PROCESSING.**

The transaction has been submitted for processing.

**55 ICD 10 CODE REQUIRED.**

Please enter an ICD 10 code.

**56 CHARGE EXCEEDS MAXIMUM**

The charge exceeds the agreed Health Fund maximum for the Provider.

**57 ITEM AMOUNT ADJUSTED**

Approved - the item amount has been adjusted.

**58 NON TELE-HEALTH ITEM USED**

A non Tele-Health item has been used.

## 12.3 Cancellation or Rejection (Void) Responses

When you attempt to cancel a claim, or when the patient rejects (voids) an assessment, the health fund sends a response, which HealthPoint displays and prints on the receipt.

If the response is not in the following table, please contact the relevant health fund for an explanation.

### **00 APPROVED**

The health fund has approved this cancellation.

### **21 CONTACT HELP DESK**

The system has taken no action.

Please contact the HealthPoint HealthClaims Help Desk.

### **25 UNABLE TO FIND CLAIM**

The system cannot find the claim you are trying to cancel.

Please contact the HealthPoint HealthClaims Help Desk.

### **30 SYSTEM DATA ERROR**

This is a serious error, so please report it to the HealthPoint HealthClaims Help Desk immediately.

### **58 TRANS NOT PERMITTED**

This system does not permit this type of transaction.

HealthPoint should not have attempted this transaction, so please report this to the HealthPoint HealthClaims Help Desk immediately.

### **76 NOT SAME DAY AS CLAIM**

The claim you are attempting to cancel was not created today. You cannot cancel this claim.

### **81 UNABLE TO LOCATE CLAIM**

Unable to match cancellation request with claim.

### **82 CLAIM ALREADY PAID**

The claim being canceled has already been settled.

### **91 SYSTEM BUSY-TRY AGAIN**

The system cannot process your cancellation or rejection at the moment.

Wait a few seconds and retry by pressing the RETRY key. Should this condition persist, please call the HealthPoint HealthClaims Help Desk.

## **92 SYSTEM UNAVAILABLE**

The system is temporarily unavailable.

Call the HealthPoint HealthClaims Help Desk, who can investigate why the system is currently unavailable.

## **93 SYSTEM PROBLEM**

The system is experiencing a problem.

Call the HealthPoint HealthClaims Help Desk, who can investigate what is going on.

## **94 DUPLICATE TRANSACTION**

The system is reporting that this transmission has been submitted more than once. HealthPoint should not have attempted this, so please report this to the HealthPoint HealthClaims Help Desk immediately.

## 13. Appendix B: Acupuncture Item Codes

To assist you with building your claims, a list of agreed Service Codes will be downloaded to your terminal during the installation session.

| Item                    | Abbreviated Description | Full Description      |
|-------------------------|-------------------------|-----------------------|
| 103                     | INITIAL CONS            | Initial consultation  |
| 203                     | STANDARD CONS           | Standard consultation |
| 307                     | MEDICAMENTS             | Medicaments           |
| Chinese Herbal Medicine |                         |                       |
| 303                     | INITIAL CONS            | Initial consultation  |
| 403                     | STANDARD CONS           | Standard consultation |
| 503                     | MEDICAMENTS             | Medicaments           |

## 14. Appendix C: Chiropractic Item Codes

For chiropractors, this list has been loaded into HealthPoint. You may like to set the fees to reflect your organisation's fee structure.

The appearance of an item in this list in no way infers that that item will attract a rebate from the health funds.

Also, the rebate on individual items may vary between different health funds.

| Item          | Abbreviated Description | Full Description                          |
|---------------|-------------------------|-------------------------------------------|
| Consultations |                         |                                           |
| 1001          | INITIAL CONSULT         | Initial Consultation                      |
| 1002          | INIT CONS/TREATMT       | Initial consultation and treatment        |
| 1003          | INITIAL CON A/H         | Initial consultation - after hours        |
| 1004          | CONSULT RE-EXAM         | Consultation re-examination and treatment |
| 1005          | STD CONSULT 15M         | Standard consultation up to 15 mins       |
| 1006          | LONG CONS 15-30M        | Long consultation 15-30 mins              |
| 1007          | STD CONSUL A/H          | Standard consultation - after hours       |
| 1008          | LONG CONS A/H           | Long consultation - after hours           |
| Radiology     |                         |                                           |
| 1100          | 1 EXTRA VIEW            | One extra view                            |
| 1101          | 2 EXTRA VIEWS           | Two extra views                           |
| 1102          | 3 EXTRA VIEWS           | Three extra views                         |
| 1103          | 4 EXTRA VIEWS           | Four extra views                          |
| 1104          | CERV SP 2 VIEWS         | Cervical spine-ap and lateral 2 views     |
| 1105          | CERV SP 3-4 VIEWS       | Cervical spine 3-4 views                  |

| Item                         | Abbreviated Description | Full Description                         |
|------------------------------|-------------------------|------------------------------------------|
| <b>Radiology (continued)</b> |                         |                                          |
| 1106                         | CERV SP 5-6 VIEWS       | Cervical spine 5-6 views                 |

## 15. Appendix D: Dental Item Codes

This list has been supplied by the Australian Dental Association. For more specific information on any of the items listed, consult An Australian Glossary of Dental Terms published by the Australian Dental Association Incorporated, or phone the Australian Dental Association on (02) 9906 4412.

For dentists, a subset of this list has been loaded into HealthPoint. You may like to set the fees to reflect your organisation's fee structure. Some items have not been loaded. If you need to include one of these items in a claim, add it by using the [NEW] and [AD-HOC] keys described in the procedure for creating a claim.

The appearance of an item in this list in no way infers that that item will attract a rebate from the health funds. Also, the rebate on individual items may vary between different health funds.

| Item               | Abbreviated Description | Full Description          |
|--------------------|-------------------------|---------------------------|
| <b>Examination</b> |                         |                           |

| 73804                                    | OSVC Path test          | Simple pathology test                                                                                                                                                                                             |
| 73805                                    | OSVC Urine Test         | Basic Urine Test                                                                                                                                                                                                  |
| 73806                                    | OSVC Pregnancy Test     | Pregnancy Test                                                                                                                                                                                                    |
| 73828                                    | OSVC Semen Exam         | Semen examination for presence of spermatozoa by a participating nurse practitioner                                                                                                                               |
| 73829                                    | OSVC Blood test         | Leucocyte count, erythrocyte sedimentation rate, examination of blood film (including differential leucocyte count), haemoglobin, haematocrit or erythrocyte count by a participating nurse practitioner - 1 test |
| 73830                                    | OSVC Blood test 2       | 2 tests described in item 73829 by a participating nurse practitioner                                                                                                                                             |
| 73831                                    | OSVC Blood test 3       | 3 or more tests described in item 73829 by a participating nurse practitioner                                                                                                                                     |
| 73832                                    | OSVC Urine Micro        | Microscopy of urine, whether stained or not, or catalase test by a participating nurse practitioner                                                                                                               |
| 73833                                    | OSVC Pregnancy test     | Pregnancy test by 1 or more immunochemical methods by a participating nurse practitioner                                                                                                                          |
| 73834                                    | OSVC Non-urine Micro    | Microscopy for wet film other than urine, including any relevant stain by a participating nurse practitioner                                                                                                      |
| 73835                                    | OSVC Film Micro         | Microscopy of Gram-stained film, including (if performed) a service described in item 73832 or 73834 by a participating nurse practitioner                                                                        |
| 73836                                    | OSVC Chemical tests     | Chemical tests for occult blood in faeces by reagent stick, strip, tablet or similar method by a participating nurse practitioner                                                                                 |
| 73837                                    | OSVC Fungi Micro        | Microscopy for fungi in skin, hair or nails by a participating nurse practitioner - 1 or more sites                                                                                                               |

| Item                                     | Abbreviated Description | Full Description                                                                                                                                                                                                                        |
|------------------------------------------|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Overseas Health Cover (continued)</b> |                         |                                                                                                                                                                                                                                         |
| 82200                                    | OSVC Short Attend       | Professional attendance by a participating nurse practitioner for an obvious problem characterised by the straightforward nature of the task that requires a short patient history and, if required, limited examination and management |
| 82205                                    | OSVC <20 min Attend     | Professional attendance for a patient presenting with clinical signs and symptoms with an easily identifiable underlying cause following a short consultation lasting less than 20 minutes duration                                     |
| 82210                                    | OSVC >20 min Attend     | Professional attendance by a participating nurse practitioner lasting at least 20 minutes                                                                                                                                               |
| 82215                                    | OSVC >40 min Attend     | Professional attendance by a participating nurse practitioner lasting at least 40 minutes                                                                                                                                               |

## 19. Appendix H: Myotherapy Item Codes

To assist you with building your claims, a list of agreed Service Codes will be downloaded to your terminal during the installation session.

| Item | Abbreviated Description | Full Description      |
|------|-------------------------|-----------------------|
| 105  | INITIAL CONS            | Initial Consultation  |
| 205  | STANDARD CONS           | Standard consultation |

## 20. Appendix I: Occupational Therapy Item Codes

To assist you with building your claims, a list of agreed Service Codes will be downloaded to your terminal during the installation session.

Here is a list of the agreed codes, which can be inserted into the back of your HealthClaims user guide, or kept somewhere handy to the terminal for easy reference.

For further information regarding the use of these codes, please contact your Occupational Therapist's Association.

| Item                         | Abbreviated Description | Full Description                                                                                                                                                                                                                                                                                                                     |

| 200                          | CONSULT-TREATMT         | Individual Assessment/Treatment – Subsequent to Initial                                                                                                                                                                                                                                                                              |
| 300                          | GROUP ASSESSMENT        | Group Assessment/Treatment                                                                                                                                                                                                                                                                                                           |
| <b>Overseas Health Cover</b> |                         |                                                                                                                                                                                                                                                                                                                                      |
| 10958                        | STANDARD CONS           | Occupational therapy health service provided to a person by an eligible occupational therapist                                                                                                                                                                                                                                       |
| 80125                        | CONS 21-50 MINS         | Professional attendance for the purpose of providing focussed psychological strategies services for an assessed mental disorder by an occupational therapist registered with Medicare Australia as meeting the credentialing requirements for provision of this service - lasting more than 20 minutes, but not more than 50 minutes |
| 80130                        | EXTERNAL VISIT          | Professional attendance at a place other than consulting rooms as per requirements outlined for item 80125                                                                                                                                                                                                                           |
| 80135                        | CONSULT 50 PLUS MIN     | Professional attendance for the purpose of providing focussed psychological strategies services for an assessed mental disorder by an occupational therapist registered with Medicare Australia as meeting the credentialing requirements for provision of this service lasting more than 50 minutes                                 |
| 80140                        | EXTERNAL VISIT          | Professional attendance at a place other than consulting rooms as per requirements outlined for 80135.                                                                                                                                                                                                                               |
| 80145                        | CONSULT 0-61 MIN        | Professional attendance for the purpose of providing focussed psychological strategies services for an assessed mental disorder by an occupational therapist registered with Medicare Australia as meeting the credentialing requirements for provision of this service, lasting for at least 60 minutes                             |

It is not necessary to include the condition code in a claim. If you want to include the condition code, it can be entered into the BODY PART field as you make the claim. If you do include the condition code, the fund may store the information in the member's file. Contact the member's fund to find out if this information is compulsory.

To include the code:

1. From the ADD SERVICE Screen, press 5 BODY PART.
  2. Enter the condition code information (e.g. for a subsequent consultation to treat Upper Limb Function (5) through musculo-skeletal system intervention (6) enter 56.)
  3. Press ENTER.
-  The condition is included in the claim.

## 20.1 Indicator Primary Condition

A condition code can be entered in the Body Part field when you make a claim. If you include this information, a fund may store the data in the member's file. Contact the member's fund to find out if the information is compulsory.

For instructions on how to include the condition as a Body Part – see the User Guide.

| Indicator | Diagnostic Intervention                                                                                                                                                                                                                                                                            |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1         | Cognition – Disorders of intellectual/cognitive skills which are acquired or developmental in origin. Note: Excludes issues relating to content of thought or ideation such as cognitive beliefs or delusions.                                                                                     |
| 2         | Behaviour Issues – Disorders where the focus is on misconduct, overt behaviours and atypical responses whether of acquired, developmental or affective origin. Note: Difficult to ascribe at time because “behaviour” is common to all disorders, but this is where the behaviour issue is primary |
| 3         | Adjustment – Disorders where the focus is on the individual's inability to manage life events or changed circumstances.                                                                                                                                                                            |
| 4         | Head and Trunk Control – Motor, neuromuscular, perceptual and sensory functions that enable the functions of head control, sitting and rolling.                                                                                                                                                    |
| 5         | Upper Limb Function – Neuromuscular, musculoskeletal and perceptual functions that enable the functions of the upper limb (including reaching, grasping, releasing and manipulation).                                                                                                              |
| 6         | Lower Limb Function – Neuromuscular, musculoskeletal and perceptual functions that enable the functions of the lower limb (including standing and gait).                                                                                                                                           |
| 7         | Neuropathic Pain – Pain which is primarily neuropathic in origin. Note: Pain associated with other dysfunction is not included.                                                                                                                                                                    |
| 8         | Respiratory Function – Issues relating to optimal ventilation and gas exchange and improved exercise capacity.                                                                                                                                                                                     |
| 9         | Cardiovascular Function – Maintaining or enhancing exercise tolerance.                                                                                                                                                                                                                             |

## Diagnostic Interventions

| Indicator | Diagnostic Intervention                                                                                                              |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------|
| 0         | Interventions involving assessment, education or skills training for personal care and other activities of daily/independent living. |
| 1         | Interventions involving psycho-behavioural, psychosocial, cognitive or perceptual assessment, skills training or education.          |
| 2         | Interventions involving an assistive or adaptive device, aid or equipment.                                                           |
| 3         | Interventions involving skills training in relation to learning, knowledge and cognition.                                            |
| 4         | Interventions involving skills training in movement and body system functions.                                                       |
| 5         | Therapies using electro-physical agents.                                                                                             |
| 6         | Therapeutic interventions on musculo-skeletal system.                                                                                |
| 7         | Interventions involving case management and liaison with family or other professionals.                                              |
| 8         | Interventions involving vocational or occupational rehabilitation.                                                                   |
| 9         | Specialised assessment                                                                                                               |

## 21. Appendix J: Optometry Item Codes

This list has been supplied by the Optometrists Association Australia.

For optometrists, this list has been loaded into HealthPoint. You may like to set the fees to reflect your organisation's fee structure.

The appearance of an item in this list in no way infers that that item will attract a rebate from the health funds. Also, the rebate on individual items may vary between different health funds.

For further information on these item codes please call the Optometrists Association Australia on Ph. 03 9663 6833.

| Item                                      | Abbreviated Description | Full Description                             |
|-------------------------------------------|-------------------------|----------------------------------------------|
| <b>Spectacle Frame Design</b>             |                         |                                              |
| 110                                       | SPECTACL FRAMES         | Spectacle Frames                             |
| 120                                       | REPL/REP FRAMES         | Replacement Part/Repair to Frame             |
| <b>Single Vision Spectacle Lens Items</b> |                         |                                              |
| 211                                       | SV STOCK LENS 1         | Single Vision Stock Lens (Single)            |
| 212                                       | SV STOCK LENS 2         | Single Vision Stock Lens (Pair)              |
| 221                                       | SV SPECWK LENS 1        | Single Vision Specially Worked Lens (Single) |
| 222                                       | SV SPECWK LENS 2        | Single Vision Specially Worked Lens (Pair)   |
| 225                                       | SV STOCK GLASSES        | Single Vision Stock Glasses                  |
| 228                                       | SV WORKED GLASSES       | Single Vision Worked Glasses                 |

| Item                                           | Abbreviated Description | Full Description                                    |
|------------------------------------------------|-------------------------|-----------------------------------------------------|
| <b>Bifocal Spectacle Lens Items</b>            |                         |                                                     |
| 311                                            | BIFOCAL LENS 1          | Bifocal Lens (Single)                               |
| 312                                            | BIFOCAL LENS 2          | Bifocal Lens (Pair)                                 |
| 315                                            | BIFOCAL GLASSES         | Bifocal Glasses                                     |
| <b>Trifocal Spectacle Lens Items</b>           |                         |                                                     |
| 411                                            | TRIFOCAL LENS 1         | Trifocal Lens (Single)                              |
| 412                                            | TRIFOCAL LENS 2         | Trifocal Lens (Pair)                                |
| 415                                            | TRIFOCAL GLASSES        | Trifocal Glasses                                    |
| <b>Progressive Spectacle Lens Items</b>        |                         |                                                     |
| 511                                            | PROGRESS LENS 1         | Progressive Lens (Single)                           |
| 512                                            | PROGRESS LENS 2         | Progressive Lens (Pair)                             |
| 515                                            | PROGRESS GLASSES        | Progressive Glasses                                 |
| <b>Spectacle Lens Add-On Items</b>             |                         |                                                     |
| 611                                            | HIGHINDEX MATL1         | High Index Material (Single)                        |
| 612                                            | HIGHINDEX MATL2         | High Index Material (Pair)                          |
| 621                                            | ASPHERIC DESGN1         | Aspheric Design (Single)                            |
| 622                                            | ASPHERIC DESIGN (PAIR)  | ASPHERIC DESGN2                                     |
| <b>Spectacle Lens Add-On Items (continued)</b> |                         |                                                     |
| 631                                            | LENS TINTING 1          | Lens Tinting (Single)                               |
| 632                                            | LENS TINTING 2          | Lens Tinting (Pair)                                 |
| 643                                            | PHOTOCROMATIC1          | Photochromatic Coating (Single)                     |
| 644                                            | PHOTOCROMATIC2          | Photochromatic Coating (Pair)                       |
| 651                                            | HARD COATING 1          | Hard Coating (Single)                               |
| 652                                            | HARD COATING 2          | Hard Coating (Pair)                                 |
| 661                                            | MULTICOATING 1          | Multi/Anti-reflective Coating (Single)              |
| 662                                            | MULTICOATING 2          | Multi/Anti-reflective Coating (Pair)                |
| 671                                            | UV COATING 1            | UV Coating (Single)                                 |
| 672                                            | UV COATING 2            | UV Coating (Pair)                                   |
| <b>Low Vision Aid Items</b>                    |                         |                                                     |
| 710                                            | LOW VISION AIDS         | Low Vision Aids                                     |
| 811                                            | RGP SPHERIC 1           | RGP contact lens (spherical) (single)               |
| 812                                            | RGP SPHERIC 2           | RGP contact lens (spherical) (pair)                 |
| 821                                            | RGP TORIC 1             | RGP contact lens (toric) (single)                   |
| 822                                            | RGP TORIC 2             | RGP contact lens (toric) (pair)                     |
| 831                                            | CONV SPHERIC 1          | Conventional soft contact lens (spherical) (single) |
| 832                                            | CONV SPHERIC 2          | Conventional soft contact lens (spherical) (pair)   |

| Item                                    | Abbreviated Description | Full Description                                                     |
|-----------------------------------------|-------------------------|----------------------------------------------------------------------|
| <b>Low Vision Aid Items (continued)</b> |                         |                                                                      |
| 841                                     | CONV TORIC 1            | Conventional soft contact lens (toric) (single)                      |
| 842                                     | CONV TORIC 2            | Conventional soft contact lens (toric) (pair)                        |
| 851                                     | DISOSBL SPHERIC 1       | Disposable contact lens supply (spherical) 3 months or less (single) |
| 852                                     | DISPOSBL SPHER 2        | Disposable contact lens supply (Toric) 3 months or less (single)     |
| 853                                     | DISPOSBL TORIC 1        | Disposable contact lens supply (Toric) 3 months or less (pair)       |
| 854                                     | DISPOSBL TORIC 2        | Disposable contact lens supply (Toric) 3 months or less (pair)       |
| 861                                     | BIFOCAL CONTACT 1       | Bifocal contact lens (non-disposable) (single)                       |
| 862                                     | BIFOCAL CONTACT 2       | Bifocal contact lens (non-disposable) (pair)                         |
| 871                                     | OTHER CONTACT 1         | Other contact lens (single)                                          |

## 22. Appendix K: Osteopathy Item Codes

For physiotherapists, this list has been loaded into HealthPoint. You may like to set the fees to reflect your organisation's fee structure.

The appearance of an item in this list in no way infers that that item will attract a rebate from the health funds. Also, the rebate on individual items may vary between different health funds.

| Item                         | Abbreviated Description | Full Description                                                                          |

## 25.1 Primary Condition

It is not necessary to include the primary condition indicator in a claim. If you want to include the primary condition indicator, it can be entered into the BODY PART field as you make the claim.

If you do include this information, the fund may store it in the member's file. Contact the member's fund to find out if this information is compulsory.

To include the code:

1. From the ADD SERVICE Screen, press 5 BODY PART.
  2. Enter the condition code information (e.g. for services dealing with Cognition, enter 10.)
  3. Press ENTER.
-  The condition is included in the claim.

A primary condition can be entered in the Body Part field when you make a claim. If you include this information, a fund may store the data in the member's file. Contact the member's fund to find out if the information is compulsory.

For instructions on how to include the condition as a Body Part – see the User Guide.

| Indicator | Diagnostic Intervention                            |
|-----------|----------------------------------------------------|
| 10        | Cognition                                          |
| 20        | Relationships                                      |
| 30        | Behavioural Issues – Conduct                       |
| 40        | Behavioural Issue – Thought/Perception Disturbance |
| 50        | Adjustment                                         |
| 60        | Affect                                             |
| 70        | Other Psychosocial Factors not otherwise specified |
